## **“INTERNATIONAL MATTERS**

### **The Madrid Protocol etc**

#### **Power to make provision giving effect to Madrid Protocol etc.**

**53A. (1)** The Minister may, with the approval of His Majesty the Sultan and Yang Di-Pertuan, make rules to give effect in Brunei Darussalam to the provisions of the Madrid Protocol or of any treaty, convention, arrangement or engagement relating to trade marks to which Brunei Darussalam is a party.

(2) Without prejudice to the generality of subsection (1), rules may, in particular, be made to provide for —

(a) the making of applications for international registrations by way of the Registry as office of origin;

(b) the procedures to be followed where the basic Brunei Darussalam application or registration fails or ceases to be in force;

(c) the procedures to be followed where the Registry receives from the International Bureau or any body specified in the rules a request for extension of protection to Brunei Darussalam;

(d) the effects of a successful request for extension of protection to Brunei Darussalam;

(e) the transformation of an application for an international registration, or an international registration, into a national application for registration;

(f) the communication of information to the International Bureau; and

(g) the payment of fees and amounts prescribed in respect of applications for international registrations, extensions of protection and renewals.

(3) Provision may also be made in the rules to apply in relation to an international trade mark (Brunei Darussalam) the provisions of section 22 and Part IV.”.

- Class 24 Textiles and substitutes for textiles; household linen; curtains of textile or plastic
- Class 25 Clothing, footwear, headgear
- Class 26 Lace and embroidery, ribbons and braid; buttons, hooks and eyes, pins and needles; artificial flowers; hair decorations; false hair
- Class 27 Carpets, rugs, mats and matting, linoleum and other materials for covering existing floors; wall hangings (non-textile)

March 2018

Issue No. 003/2018

- Class 28 Games, toys and playthings; video game apparatus; gymnastic and sporting articles; decorations for Christmas trees
- Class 29 Meat, fish, poultry and game; meat extracts; preserved, frozen, dried and cooked fruits and vegetables; jellies, jams, compotes; eggs; milk and milk products; edible oils and fats
- Class 30 Coffee, tea, cocoa and artificial coffee; rice; tapioca and sago; flour and preparations made from cereals; bread, pastries and confectionery; edible ices; sugar, honey, treacle; yeast, baking-powder; salt; mustard; vinegar, sauces (condiments); spices; ice
- Class 31 Raw and unprocessed agricultural, aquacultural, horticultural and forestry products; raw and unprocessed grains and seeds; fresh fruits and vegetables, fresh herbs; natural plants and flowers; bulbs, seedlings and seeds for planting; live animals; foodstuffs and beverages for animals; malt
- Class 32 Beers; mineral and aerated waters and other non-alcoholic beverages; fruit beverages and fruit juices; syrups and other preparations for making beverages
- Class 33 Alcoholic beverages (except beers)
- Class 34 Tobacco; smokers' articles; matches

## **PART II**

### **CLASSES OF SERVICES**

- Class 35 Advertising; business management; business administration; office functions
- Class 36 Insurance; financial affairs; monetary affairs; real estate affairs
- Class 37 Building construction; repair; installation services
- Class 38 Telecommunications
- Class 39 Transport; packaging and storage of goods; travel arrangement
- Class 40 Treatment of materials
- Class 41 Education; providing of training; entertainment; sporting and cultural activities
- Class 42 Scientific and technological services and research and design relating thereto; industrial analysis and research services; design and development of computer hardware and software
- Class 43 Services for providing food and drink; temporary accommodation
- Class 44 Medical services; veterinary services; hygienic and beauty care for human beings or animals; agriculture, horticulture and forestry services
- Class 45 Legal services; security services for the physical protection of tangible property and individuals; personal and social services rendered by others to meet the needs of individuals

Date: 20 December, 2013 Country: Germany No. 30 2013 069 607.7 for Class(es) 07, 09, 12, 13, 14, 16, 18, 28, 37, 38, 39, 41, 42, and 45.

[510][511]

Cl.07. Machines and machine tools; motors and engines (except for land vehicles); machine coupling and transmission components (except for land vehicles); agricultural implements other than hand-operated; incubators for eggs; automatic vending machines; aeroplane engines; propulsion mechanisms for aircraft; machines and machine tools, in particular for the manufacture and repair of vehicles and apparatus and parts therefor for locomotion and propulsion by land, air or water and in particular for the manufacture and repair of aeroplane engines; motors and engines (except for land vehicles); turbines other than for land vehicles; (auxiliary) propulsion mechanisms other than for land vehicles; tools (parts of machines); mechanical tools, power-operated tools, machine tools; aeronautical machines; drive systems for satellites (propulsion mechanisms and nozzles); drives, motors and engines and propulsion mechanisms (other than for land vehicles); drive systems and drive mechanisms for helicopters and rotorcraft; oil tanks, oil containers and petrol caps, oil filler caps (parts of propulsion mechanisms and motors and engines for helicopters and rotorcraft); intake ducts, intake manifolds, air intakes for propulsion mechanisms and motors and engines for helicopters and rotorcraft; lubricating installations and lubricating systems for propulsion mechanisms and motors and engines for helicopters and rotorcraft; cooling systems for propulsion mechanisms and motors and engines for helicopters and rotorcraft; oil coolers (parts of propulsion mechanisms and motors and engines for helicopters and rotorcraft); guide bearings for transmission shafts for helicopters and rotorcraft; couplings for helicopters and rotorcraft; main rotors and tail rotors for helicopters and rotorcraft; rotor heads (rotor hubs) for helicopters and rotorcraft; guide bearings for rotor heads (rotor hubs) for helicopters and rotorcraft; pneumatic actuators for helicopters and rotorcraft; starters for current generators and generators of electrical energy/power for helicopters and rotorcraft; hydraulic valves, motorised valves, pneumatic valves, pressure valves and servo valves for use in helicopters and rotorcraft; power-operated blowing machines for use in helicopters and rotorcraft; fuel pumps and fuel conveying pumps for helicopters and rotorcraft; fuel filters for helicopters and rotorcraft; electric pumps, hydraulic pumps and pneumatic pumps for use in helicopters and rotorcraft; cylinders for helicopters and rotorcraft; electric sockets, electric jacks, jack cylinders, hydraulic jacks, pneumatic jacks for use in helicopters and rotorcraft; blowing machines and fans for motors and engines and propulsion mechanisms for helicopters and rotorcraft; alternators for helicopters and rotorcraft; regulators and regulating apparatus for propulsion mechanisms and motors and engines for helicopters and rotorcraft; machines and machine tools for the manufacture, production, maintenance, servicing, repair and rebuilding of helicopters and rotorcraft; machine coupling and transmission components for helicopters and rotorcraft; motors and engines, drives and propulsion mechanisms for helicopters and rotorcraft; servomotors for helicopters and rotorcraft; gears and gear cases, gear boxes for helicopters and rotorcraft; drive shafts and power transmission shafts for helicopters and rotorcraft; rotor heads (rotor hubs) for helicopters and rotorcraft; hydraulic actuators and drives for helicopters and rotorcraft; hydraulic engines and motors and hydraulic drives for helicopters and rotorcraft; hydraulic regulators and controllers for motors and engines and drives for helicopters and rotorcraft; electricity generators for helicopters and rotorcraft; ground support equipment, apparatus, tools, installations for aircraft; fittings and connectors for the aforesaid goods.

Cl.09. Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of sound or images; magnetic data carriers, recording discs; compact discs, DVDs and other digital recording media; mechanisms for coin-operated apparatus; cash registers, calculating machines, data processing equipment, computers; computer software; fire-extinguishing apparatus; software; computer programs; computers; data processing apparatus; scientific (other than for medical purposes), nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments (included in this class); downloadable electronic publications; magnetic data media, magnetic data carriers; data processing apparatus and computers; pre-recorded and blank discs, pre-recorded and blank audio and video cassettes; pre-recorded and blank compact discs;

transmitters, receivers, apparatus for the transmission of electronic signals and radio signals; transponders; navigation apparatus for vehicles; navigational instruments; satellite navigational apparatus; avionics instruments, apparatus and systems relating thereto; simulators for the steering and control of vehicles; flight simulation software; scientific satellites; satellites for receiving and transmission of radio signals; electric cables, fibre optic cables; fuel dispensing pumps for service stations; sunglasses; satellites for scientific and commercial purposes; aeronautical appliances; scientific apparatus and instruments, namely scientific apparatus and equipment for measuring inertia, based on gyrometric fibre optic sensors, solely for space systems, namely satellites, spacecraft, launch rockets, in particular carrier rockets and space stations; software, scientific apparatus and instruments, namely apparatus and equipment for navigation and positioning of space systems, namely satellites, spacecraft, launch rockets, in particular carrier rockets and space stations; data processing apparatus for providing technical information and logistics in connection with space systems, namely satellites, spacecraft, launch rockets, in particular carrier rockets and space stations; measuring, checking (supervision), observation and transmission apparatus; apparatus and instruments for Earth observation, encoding and transmission of data via satellites, altitude and orbit control apparatus and instruments for satellites; ground systems for controlling satellites; radio transceivers; telescope mirrors; infrared cameras; equipment bays for satellites and spacecraft, in particular avionics modules and supply modules; altitude and position control devices for satellites; measuring, control, observation and communications apparatus; apparatus and instruments for Earth observation, and for the encoding and transmission of data by means of satellites, apparatus and instruments for monitoring satellite altitude and satellite orbit; ground systems for operation and control of satellites; satellite management programs; satellite control programs; radioelectric transceivers (transmitters and receivers) and radio apparatus; avionics modules, supply modules and test modules for satellites; spacecraft and carrier rockets; electronic, electric and optical satellite modules and spacecraft modules, including assemblies, containing the measuring circuits, communications circuits and auxiliary launch apparatus in a housing; apparatus and systems for altitude control and position control; scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments; apparatus for recording, transmission or reproduction of sound or images; magnetic data carriers, audio compact discs; data processing apparatus and computers; data carriers; transmitters (telecommunication), electric cables, fibre optic cables, electronic apparatus and instruments, electronic storage media; data storage media containing flight and navigation instructions for helicopters, rotary-wing aircraft and drones; optical or infrared monitoring installations and apparatus; thermal imaging apparatus; observation instruments and systems consisting thereof; infrared monitoring and tracking apparatus and systems consisting thereof, in particular positioning systems; secure observation and reconnaissance apparatus and systems consisting thereof; helicopter monitoring apparatus and systems consisting thereof; aerial monitoring apparatus and systems consisting thereof, day/night monitoring apparatus and systems consisting thereof; high-precision optical apparatus; encoders or decoders, digital image and sound data transmitters; telemetry, remote control, radio altimetry and proximity and approach apparatus and instruments for use in the field of aviation and space travel and in instruments for aviation and space travel, detection apparatus and instruments, radar, antenna, sensor and computer security systems; recording apparatus and positioning apparatus, recording instruments and positioning instruments; radars; lidars; electrooptical sensors; computer security systems; radar, antenna and satellite transmitters and receivers, converters and transponders; electric apparatus and equipment for civil and military use; electric and electronic tracking, discovery, detection, monitoring, geopositioning and geolocation apparatus; electric and electronic apparatus and equipment for radiolocation and radio navigation; airborne ground monitoring and reconnaissance apparatus based on radar images and systems consisting thereof; sensors for unmanned aircraft; instruments for navigation by sea, land, air and in space; guidance and navigation apparatus and systems consisting thereof, stationary or portable computers, electronic and telecommunications apparatus and equipment, included in class 9, computer servers, servers and apparatus for data storage, computer workstations, modems; data memories; screens; wireless and satellite-based hardware and software for onboard data networks; multi-platform interfaces, including hardware and software therefor; data storage media and user terminals for position determination, mapping information and course guidance for land vehicles, aircraft, marine vehicles or submarine vehicles; processing apparatus and systems consisting thereof for geographical data, in particular satellite systems, GPS; apparatus and equipment for the acquisition, compression, transmission, analysis and recovery of satellite images and aerial photographs; image transmission apparatus based on a digital radio link and systems consisting thereof; optical parts and components; spatial-optical apparatus, equipment and instruments; optical apparatus, equipment and instruments for aerial reconnaissance vehicles; course guidance, radio remote control and autopilot equipment and apparatus; hardware and software (recorded programs) for position determination, monitoring and surveillance in specific geographical areas; monitoring and control hardware and software (recorded programs), position determination, monitoring and surveillance apparatus and systems consisting thereof in specific geographical areas, media for data storage and user

terminals (computer terminals) for position determination, navigation, navigation databases, radar or satellite navigation, radio navigation and for the following applications: mapping information, safety and emergency equipment, instruments and apparatus, research (other than for medical use) and life-saving equipment, instruments and apparatus; media for data storage and user terminals for position determination, mapping information, course guidance for land vehicles and aircraft; electric or electronic instruments and apparatus for receiving, processing and/or transmission of navigation signals, and elements and components relating thereto; electric and electronic apparatus and instruments for testing, analysis and performance monitoring of navigation data and navigation signals, and elements and components relating thereto; electric and electronic apparatus and instruments for measuring, verification, checking, reviewing, testing and monitoring of positions and navigation data relating thereto; computer software (recorded programs) for measuring, verification, checking, reviewing, testing and monitoring of positions and navigation data relating thereto; satellite positioning and satellite navigation apparatus and equipment consisting thereof; telecommunications and radio communications apparatus, hardware and software for telecommunications and radio communications networks, hardware and software for digital telecommunications networks; communications and radio communications networks via wires, cables, fibre optic technology, radio or satellite; call centre servers, multiplexers and demultiplexers, electric and electronic apparatus and instruments for the control and management of networks; receivers (telecommunications), electronic and radioelectric signal transmission apparatus; satellites for scientific use and satellites for receiving and transmission of radioelectric signals; computer terminals, communications terminals, stationary or portable computer terminals or communications terminals; apparatus for communications, transmission and receiving of data, speech, and image and multimedia data; network apparatus, in particular protocol converters and systems consisting thereof for gateways; basic equipment for and access interfaces to Internet protocol (IP) networks; devices and equipment and apparatus consisting thereof for the transmission of messages, information, data, and sound and images over the airways, and via cables, fibre optic technology, telephones, satellites, terminals, telecommunications networks and computer networks; telecommunications and desktop automation terminals for military applications; telephone apparatus, mobile telephones, cordless telephones, radio paging apparatus and equipment, facsimile machines, PDAs (personal digital assistants), mobile apparatus for Internet access, replacement parts for the aforesaid goods, enabling communications and conducting of secure transactions and online trading; software programs in a computer-usable format, being provided on magnetic or optical storage media or as a downloadable format and being usable with the aforesaid goods; software programs for secure communications, enabling the authentication, checking, recording and analysis of business relationships/transactions by means of a system of controlled access rights and notifications, apparatus for satellite telecommunications and satellite telecommunications stations consisting thereof, in particular in aircraft; software, software (recorded programs) for communications and radio communications networks for data transmission by means of wires, cables, fibre optic technology, radio or satellite; software, software (recorded programs) for the management, administration, architecture management, configuration and protection of local or remote networks for speech, images and data; apparatus and software (recorded programs) for securing access to computer and Internet Protocol (IP) networks; software (recorded programs) for encryption and decryption; software (recorded programs) for encoding and decoding; software (recorded programs) for the architecture, management and securing of access to computer networks and Internet Protocol (IP) networks; simulation, modelling, testing and experiment software; servers for modelling simulations of and for tests and experiments relating to civil and military operations; software (recorded programs) for computers for the development, optimisation and performance analysis of methods and algorithms, and processors (CPUs) and software modules for the processing and/or generation of navigation signals and/or navigation data in relation to navigation or cartography; software for the planning, acquisition, processing and dissemination of reconnaissance information and data (intelligence information), solely in the fields of reconnaissance and geography for defence and security purposes, all of the aforesaid goods for digital radio networks; software for digital radio networks, enabling user access to voice services and data, including group communications in relay mode, individual conversations, short messages, and data localisation and transmission, all of the aforesaid goods for digital radio networks; software (recorded programs) for the providing of access to an electronic messaging service; software for transaction security for intranet and Internet data terminals, control stations and terminals for the display of information in graphics and text format; secure data processing apparatus, secure telecommunications apparatus and equipment consisting thereof; handheld electronic devices for wireless receiving and/or transmission of secure data (in particular for messages) and electric and electronic apparatus and equipment enabling users to store or manage personal information; software for forwarding secure messages, Internet e-mails and/or other data to one or more handheld electronic devices from a database stored on a PC or a server or belonging thereto; software for the synchronisation of secure data between a remote station/apparatus and a fixed station/apparatus or a remote station/apparatus; electric and electronic apparatus and instruments, in particular computers and processors (CPUs) for data and computer software (recorded

programs) for the development, optimisation and performance analysis of methods and algorithms, and processors (CPUs) and software modules for the processing and/or generation of navigation signals and/or navigation or cartography data; electric and/or electronic apparatus, electric and/or electronic instruments and apparatus for displaying reports, analyses and measurement results, in particular in the form of graphics, charts and diagrams resulting from the performance analysis and monitoring of navigation signals and/or data; electric and electronic apparatus and instruments for the examination and identification of segments of space in two or three dimensions; computer software (recorded programs) for the examination and identification of segments of space in two or three dimensions; apparatus for monitoring flight parameters, in particular navigation and control software (recorded programs) for helicopters, rotary-wing aircraft and drones, communications apparatus and systems consisting thereof and communications antenna for aircraft; recording apparatus and systems consisting thereof for apparatus for locomotion and propulsion by land, air or water; automatic flight control apparatus and systems consisting thereof; testing apparatus (real-time systems) for conducting tests on electronic samples and parts, in particular data input, recording, processing and display equipment and apparatus, data buses, data transmission apparatus and systems consisting thereof, analogue-digital and digital-analogue converters, program prototypes, simulators for the simulation of mechanical, electric and electronic functional processes, linking and chaining modules, data analysis apparatus, and changeover, panel and selector switches and coordinator switches, interface apparatus or programs, in particular analogue, digital and discrete data bus interface apparatus or programs; control apparatus for testing apparatus and searchable programs for the aforesaid control equipment recorded on data carriers; searchable test programs recorded on data carriers; instruments, and computer hardware and software for the simulation of electronic samples and mechanical, electric and electronic functional processes; electric and electronic display apparatus for the preparation and conducting of tests on electronic samples and processing of the test results; software, in particular database software for the management of tests on electronic samples for monitoring the configuration and definition of the test system; computer hardware and software for generating test documents; computer hardware and software for linking test installations via telecommunications equipment and/or via the Internet and/or via local networks; instruments and installations consisting thereof for the testing of vehicles and apparatus for locomotion and propulsion by land, air and water; sensors and communications apparatus and equipment; sighting telescopes for firearms; telescopes, binoculars, extendable telescopes and binoculars; protective eyewear, in particular eyewear for protection against lasers; distance measuring apparatus, in particular laser distance measuring apparatus, digital magnetic compasses; cameras, in particular reconnaissance cameras, exploratory cameras; equipment for aerial photography; aerial imaging apparatus and aerial cameras; periscope systems; stabilised sensor platforms; night-vision apparatus, residual light amplifiers; laser target illuminators; software for assessing, monitoring and control of data security within an information technology network; industrial geoproduction systems comprising a digital processing chain for producing satellite images, satellite data, aerial photographs, aerial image data, terrestrial data and terrestrial images in 3D (three dimensions); automatic vending machines and mechanisms for coin-operated apparatus; antenna installations, antenna systems; tape recorders; magnetic tape units for computers; magnetic tapes; videotapes; cinematographic cameras; camcorders; compact discs (audio, video); optical compact discs; magnetic disk storage; optical discs; recording discs; optical data media; magnetic data media; radio apparatus (telecommunications); software, solely for the field of satellite imaging and satellite data; apparatus and equipment for the processing of data, in particular via satellites; apparatus and equipment for the simulation of infrastructure development; apparatus and equipment for producing and updating development plans and development charts and for observing plots of agricultural land and optimising crop yield trends and monitoring thereof; compact disc players; optical document readers; character readers; readers; computer software (recorded programs); games software; computer programs (downloadable software); software and software packages for the processing and analysis of photographs, in particular aerial photographs, satellite images or terrestrial images; apparatus and equipment for the processing of data, in particular satellite data; software packages for stereographic reproduction, for generating and preparing digital terrain models, for 3D modelling, ortho, orthophotos and thematic maps; computer files and software packages with geographical, geological, cartographical and topographical data; computer files and software packages comprising reproductions of terrain and digital maps; equipment and apparatus for databases and for accessing databases; computer software for stereographic projections, digital terrain models, orthoimages and thematic maps; computer files and software for geography, geology and topography; computer files and software for ground imaging and digital maps; satellite navigation equipment; satellites for scientific purposes, in particular Earth observation satellites; apparatus and equipment for the processing, analysis, reproduction and storage of images, aerial photographs and satellite photographs; computer hardware; database equipment; database access equipment; database management software, in particular for stereographic reproduction, for the storage, preparation, processing and analysis of drawings, images, photos, diagrams, charts, aerial photographs, satellite photographs, surface models and terrain models; data carriers for computer

software, computer files, software packages, all containing or being for stereographic reproduction, for the storage, preparation, processing and analysis of surface models and terrain models, images and photos; data processing apparatus and data processing equipment, in particular for satellite data; carriers for dark plates (photography); mirrors (optics); satellite navigation systems; satellites for scientific purposes, in particular Earth observation satellites and radar satellites; remote control apparatus and remote control equipment; airborne sensors; transmitters (telecommunication); apparatus and equipment for the processing, analysis, reproduction and storage of satellite images; electric and electronic apparatus and equipment for generating digital contour line models; databases of digital contour line models; computers and computer software for industry, namely the fire brigade and government, with regard to operating systems, customer management, systems for the management of valuables, geographical information systems, computerised construction, real-time visualisation and mobile systems and configuration thereof for use on suitable computer hardware; scientific satellites and satellites for receiving and transmission of radio signals; USB flash drives; adapters, chargers; telephone adapters; USB hardware; computer mice; headphones; laser pointers; Bluetooth headsets (wireless headsets for use with mobile telephones); decorative magnets; cases, sheaths and sleeves for touch pads; cases, sheaths and sleeves for telephones, in particular for mobile telephones; sunglasses; scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments, all of the aforesaid goods for use in the field of helicopters and rotorcraft; apparatus, equipment and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, all of the aforesaid goods for use in the field of helicopters and rotorcraft; apparatus for recording, transmission or reproduction of sound, images or data, all of the aforesaid goods for use in the field of helicopters and rotorcraft; flight control apparatus and flight control equipment for guiding and controlling helicopters and rotorcraft; electronic controllers for guiding and controlling helicopters and rotorcraft; flight regulating systems and flight control systems with fly-by-wire control for helicopters and rotorcraft; fibre optic flight regulating systems and flight control systems for helicopters and rotorcraft; flight regulating systems and flight control systems for guiding, controlling and self-navigation of helicopters and rotorcraft, comprising flight control apparatus and flight control equipment, electric wire cables or fibre optic cables, sensors for collecting flight data, calculating machines, data processing installations, data processing apparatus and computers, flight data software; glass cockpits for helicopters and rotorcraft, namely cockpits comprising apparatus and equipment for flight control and flight regulation and a dashboard with flight instruments, comprising screens for visual display (LCD/LED panels) controlled by flight management systems (computer hardware and computer software) displaying adjustable information for guiding and navigation of helicopters and rotorcraft, for testing and monitoring flight parameters, for testing and monitoring components, parts and onboard equipment for helicopters and rotorcraft; head-up displays (visual field displays) for use in helicopters and rotorcraft, namely transparent electronic display apparatus and screens for providing navigation data, operational data and use data for pilots and co-pilots; flight instruments and flight apparatus for providing information regarding the flight situation of the helicopter or rotorcraft for pilots; autopilots for use in helicopters and rotorcraft; apparatus and equipment for testing the flight parameters of helicopters and rotorcraft; navigation apparatus, navigation equipment and navigation instruments for helicopters and rotorcraft; communications equipment and communications apparatus for helicopters and rotorcraft; avionics equipment and avionics apparatus, in particular regulating systems, control systems, observation systems, monitoring systems, communications systems, navigation systems, systems for weather and anti-collision systems for helicopters and rotorcraft; display apparatus and measuring instruments for use in helicopters and rotorcraft; digital displays and digital display apparatus for use in helicopters and rotorcraft; accelerometers, altimeters, radar altimeters, ammeters, anemometers, barometers, flowmeters, frequency meters, manometers, tachometers (revolution counters), thermometers, torquemeters, speedometers, vibration meters, vibration gauges, voltmeters, telemeters, range finders, pressure indicators, fuel gauges, all being for use in helicopters and rotorcraft; oil pressure gauges and oil pressure indicators, oil temperature gauges and oil temperature indicators, fuel pressure gauges and fuel pressure indicators, fuel temperature gauges and fuel temperature indicators, height indicators, position indicators (artificial horizon), airspeed indicators, course deviation indicators, first limit indicators (FLI), directional indicators, horizontal situation indicators (HSI), radio-magnetic indicators (RMI), turn indicators and vertical speed indicators (variometers), all being for use in helicopters and rotorcraft; inertial navigation systems (inertial measurement units) for use in helicopters and rotorcraft; gyroscopes, rate gyroscopes, laser gyroscopes (gyrolasers) for use in helicopters and rotorcraft; corn passes, gyrocom passes, magnetic corn passes and radio corn passes (automatic direction finders) for use in helicopters and rotorcraft; VHF omnidirectional range (VOR) receivers for use in helicopters and rotorcraft; global positioning systems (GPS) for use in helicopters and rotorcraft; ground-proximity warning systems (GPWS), enhanced ground-proximity warning systems (EGPWS) and terrain awareness and warning systems (TAWS) for use in helicopters and rotorcraft; sensors for use in helicopters and rotorcraft, in particular acceleration measurement sensors, air temperature sensors, alarm

sensors, distance sensors, electric sensors, electrooptical sensors, electronic sensors, electronic measurement sensors, fire sensors, fluid level sensors, frost sensors, gas sensors, heat sensors, moisture sensors, crash sensors, impact sensors, infrared sensors, level sensors, load sensors, light sensors, magnetic sensors, movement sensors, noise sensors, optical sensors, piezoelectric sensors, position switches, position transmitters and position sensors, pressure sensors, approach sensors and proximity sensors, smoke sensors, speed sensors, temperature sensors, torque sensors, vibration sensors, sensors for tracking actual and projected disturbances; detectors for use in helicopters and rotorcraft, in particular carbon dioxide detectors, carbon monoxide detectors, fire detectors, heat detectors, leak detectors, immersion detectors, movement detectors, particle detectors, approach detectors, proximity detectors and proximity switches, radar detectors, rotor speed detectors, vibration detectors; transducers for use in helicopters and rotorcraft comprising, in particular, resonant transducers, magnetostrictive transducers, piezoelectric transducers, electrostatic transducers, transducers with variable resistance (variable-resistance transducers), electrooptical transducers, electroacoustic transducers, power transducers, high-frequency transducers, linear transducers, measurement transducers, pressure transducers, torque transducers, ultrasound transducers; power supply units for helicopters and rotorcraft; electric accumulators for helicopters and rotorcraft; electric valves (thermionic), solenoid valves, magnetic valves for use in helicopters and rotorcraft; electric regulators and supply voltage regulators for helicopters and rotorcraft; commutators, collectors and rectifiers for use in helicopters and rotorcraft; electric inverters for use in helicopters and rotorcraft; electric switches for use in helicopters and rotorcraft; pressure switches for use in helicopters and rotorcraft; electric actuators for use in helicopters and rotorcraft; fuel supply regulators, fuel flow regulators and fuel quantity regulators for use in helicopters and rotorcraft; timers (time recording instruments and time recording apparatus) for use in helicopters and rotorcraft; calculating machines, in particular pocket calculators, first limit calculating machines, in particular first limit pocket calculators, obstacle avoidance calculating machines, in particular obstacle avoidance pocket calculators, navigation calculating machines, in particular navigation pocket calculators, all being for use in the field of helicopters and rotorcraft; calculating machines, in particular pocket calculators for assessing the technical condition and technical state, damage to and use and operating time of helicopters and rotorcraft; data processing apparatus and data processing equipment, data processors, computers, computer hardware and computer peripheral apparatus, all being for use in the field of helicopters and rotorcraft; circuit boards and printed circuits for use in helicopters and rotorcraft; couplers and connecting lines (data processing apparatus) for helicopters and rotorcraft; onboard computers for helicopters and rotorcraft; air data computers for use in helicopters and rotorcraft; symbol generators (display processing computers) for use in helicopters and rotorcraft; computer monitors, screens for optical and visual display, flat panel display screens, touch screens and multi-functional LED screens and multi-functional LCD screens, all being for use in the field of helicopters and rotorcraft; instruments and apparatus for airborne data acquisition for use in helicopters and rotorcraft; flight data recorders for use in helicopters and rotorcraft; digital voice recorders for use in helicopters and rotorcraft; decoders, encoders, signal scramblers and descramblers, electronic encryption and decryption apparatus, all being for use in the field of helicopters and rotorcraft; telecommunications apparatus and telecommunications equipment for use in the field of helicopters and rotorcraft; transponders for use in the field of helicopters and rotorcraft; transmitters for use in the field of helicopters and rotorcraft; transceivers for use in the field of helicopters and rotorcraft; radio transmitters, radio receivers and radio signal tuners for use in the field of helicopters and rotorcraft; antennas, antenna installations and antenna systems and satellite dishes, modems, telephone apparatus and telephone receivers for use in the field of helicopters and rotorcraft; amplifiers for use in the field of helicopters and rotorcraft; headphones, microphones, loudspeakers for use in the field of helicopters and rotorcraft; cameras, camcorders and infrared cameras for use in helicopters and rotorcraft; electronic card readers for use in the field of helicopters and rotorcraft; radars and radar systems for use in the field of helicopters and rotorcraft; alarm installations, alarms and alarm equipment for use in helicopters and rotorcraft; emergency locator transmitters for helicopters and rotorcraft; computer software for use in the field of aircraft, helicopters and rotorcraft; computer software for flight control of aircraft, helicopters and rotorcraft; computer software for navigation assistance and flight guidance assistance for aircraft, helicopters and rotorcraft; computer software for managing and recording flight data for aircraft, helicopters and rotorcraft; computer software for the design, production, manufacture, testing, maintenance, servicing and repair of aircraft, helicopters and rotorcraft; equipment, apparatus, parts, components and fittings for aircraft, helicopters and rotorcraft; data acquisition software and data processing software for the design, production, manufacture, control, flying, guidance, navigation, monitoring, security, maintenance, servicing and repair of aircraft, helicopters and rotorcraft; computer software for support during the regulating of parameters for apparatus used for the design, production, manufacture, control, guidance, flying, navigation, surveying maintenance, servicing and repair of aircraft, helicopters and rotorcraft; computer software for support during the search and remediation (troubleshooting) of faults and malfunctions, damage, mechanical faults and defects and the exchange and replacement of expired and worn parts of aircraft, helicopters and rotorcraft; computer

software for displaying malfunctions, faults, failures, breakdowns and abnormalities in aircraft, helicopters and rotorcraft and for suggesting countermeasures for rectifying the aforesaid events; computer software for digital cartography for use in the field of aircraft, helicopters and rotorcraft; computer software for the preparation and creation of flight plans for aircraft, helicopters and rotorcraft; computer software for mission planning for aircraft, helicopters and rotorcraft; computer software for the presentation of flight reports for aircraft, helicopters and rotorcraft; computer software for tracking and locating aircraft, helicopters and rotorcraft; computer software for the identification and authentication of individuals for use in the field of aircraft, helicopters and rotorcraft; computer software for encoding, decoding, encryption, decryption of data for use in the field of aircraft, helicopters and rotorcraft; artificial vision systems and enhanced vision systems, namely computer hardware systems and computer software systems for displaying a realistic three-dimensional representation of the external world and for adding real-time information recorded by sensors installed on helicopters and rotorcraft, to support aircraft, helicopters and rotorcraft during flight and navigation through the enhancement of the situational perception and situation-dependent awareness of the pilot; day/night-vision goggles, residual light amplification goggles for use in helicopters and rotorcraft; maintenance and servicing equipment (maintenance kits) for helicopters and rotorcraft predominantly comprising computer hardware and computer software, sensors, cables and wires, for measuring and analysing vibrations in the main and tail rotors, transmission shafts and other dynamic components and assemblies and providing of computerised tuning (setting) of flight parameters; testing installations and testing stands for aircraft, helicopters and rotorcraft; testing means for aircraft, helicopters and rotorcraft, electronic equipment and apparatus for helicopters and rotorcraft and flight simulators for helicopters and rotorcraft; flight simulators for aircraft, helicopters and rotorcraft; flight simulation software for aircraft, helicopters and rotorcraft; flight manuals (handbooks) and maintenance and servicing manuals (handbooks) for aircraft, helicopters and rotorcraft in electronic format, being recorded on computer-readable media or being downloadable; electronic publications with regard to aircraft, helicopters and rotorcraft, being recorded on computer-readable media or being downloadable; software for video games; fire extinguishers for use in helicopters and rotorcraft.

Cl.12. Vehicles, apparatus for locomotion and propulsion by land, air, water or rail; aircraft; spacecraft; carrier rockets (spacecraft); air balloons; vehicle components, included in class 12; aeronautical apparatus; remote control aircraft; screw-propellers; military vehicles for transport, in particular aircraft; seat covers for vehicles; aircraft of all kinds; unmanned aircraft; drones (missiles); spacecraft; apparatus, machine equipment and equipment for aviation and space travel; military aircraft; helicopters and rotorcraft; helicopters and rotorcraft and structural parts therefor, fittings and connectors, dynamic components and equipment, included in class 12; fuselages for helicopters and rotorcraft; tail booms for helicopters and rotorcraft; main rotors and tail rotors for helicopters and rotorcraft; rotor blades for helicopters and rotorcraft; screw-propellers for helicopters and rotorcraft; landing wheels for helicopters and rotorcraft; shock absorbers for helicopters and rotorcraft; windows for helicopters and rotorcraft; glass panels for helicopters and rotorcraft; seats for helicopters and rotorcraft; seat covers for helicopters and rotorcraft; seat cushions and seat padding for helicopter and rotorcraft seats; seat belts for helicopter and rotorcraft seats; restraining belts for helicopter and rotorcraft seats; upholstery for helicopters and rotorcraft; interior linings for helicopters and rotorcraft; joysticks, levers and pedals for controlling helicopters and rotorcraft (structural parts for helicopters and rotorcraft); petrol tanks and gas tanks, and tank caps and gas caps for helicopters and rotorcraft; protective strips for helicopters and rotorcraft; protective strips for rotor blades for helicopters and rotorcraft; wings and blades for helicopters and rotorcraft; landing gear and undercarriages for helicopters and rotorcraft; brakes for helicopters and rotorcraft; doors for helicopters and rotorcraft; fittings and connectors for all of the aforesaid goods (included in class 12); parts and fittings for all of the aforesaid goods, included in class 12.

Cl.13. Firearms; ammunition and projectiles; explosives; fireworks; rockets (projectiles), remote control projectiles, missiles; signal rockets; visors and sights, other than telescopic sights, for firearms; visors and sights, other than telescopic sights, for cannons and guns (artillery).

Cl.14. Precious metals and their alloys and goods in precious metals or coated therewith, not included in other classes; jewellery, precious stones; horological and chronometric instruments; key rings and chains (trinkets or fobs); pins; key straps, key cords; tie pins; trophies, in particular crystal balls; trophies in precious metals; jewellery boxes and jewellery cases (in precious metals); collars; necklaces; necklets; bracelets; bangles; earrings; rings.

Cl.16. Paper, cardboard and goods made from these materials, not included in other classes, printed matter; bookbinding material; photographs; stationery; adhesives for stationery or household purposes; artists' materials; paint brushes; typewriters and office requisites (except furniture); instructional and

teaching material (except apparatus); plastic materials for packaging (not included in other classes); printers' type; printing blocks, printing forms; fountain pens and nibs; typewriters and office requisites (except furniture); leaflets; posters; labels, not of textile; flags of paper; postcards; calendars; aerial photographs and satellite images; geographical maps; topographical maps; geographical pictures and images; geographical lists, graphics, diagrams and drawings; geographical surveys and studies; business cards; desk holders for business cards; paper bags, paper sacks and conical paper bags; books; college exercise books, note books, jotters; globes; desk mats; passport cases and passport sleeves; (personal) organisers; briefcases; printed matter, in particular books, manuals (handbooks), magazines, periodicals, illustrated magazines, journals, newspapers, catalogues, pamphlets, all in relation to helicopters and rotorcraft.

Cl.18. Leather and imitations of leather, and goods made of these materials and not included in other classes; animal skins, hides; trunks and travelling bags; umbrellas and parasols; walking sticks; whips, harness and saddlery; handbags; shopping bags; bags for sports; leather cases, leather trunks; suitcase tags (of leather); luggage tags, luggage stickers; luggage straps; vanity cases, not fitted, make-up cases; screens; luggage, bags; pocket wallets, purses, coin purses, CD wallets; backpacks; card cases; valises, in particular valises of leather; leather cases for credit cards; cases and sleeves for business cards; bags and trunks of leather and imitations of leather.

Cl.28. Games and playthings; gymnastic and sporting articles not included in other classes; decorations for Christmas trees; scale model vehicles and parts therefor (included in class 28), in particular models of aircraft and in particular model aeroplanes; toy vehicles; paragliders; jigsaw puzzles; playing cards; kites; inflatable toys, in particular aircraft; playing cards; balloons; balls for sports and games; building blocks (toys); games with building blocks; dominoes and domino games; electronic targets; flying discs (toys); mobiles (toys); plush toys, stuffed animals; swimming pools (toys); radio control toys, in particular vehicles of all kinds; construction sets for scale models; snow globes; teddy bears; toys; belts, in particular for weightlifting (sporting articles); sticks, in particular golf clubs; bags for sports; discs for sports; repair tools for lawns (golf equipment and golf accessories); golf gloves; golf bags, with or without wheels; golf balls; hang-gliders, paragliders; skis, in particular for use on snow and water; surfboards; bags especially designed for skis and surfboards; toy vehicles with radio control; scale model vehicles of helicopters and rotorcraft.

Cl.37. Building construction; repair; installation services; building construction with regard to the field of aviation and space travel, in particular airports and rocket launch areas; repair, maintenance and disassembly, in particular in the field of vehicles and apparatus for locomotion by land, air or water, and of drive motors; maintenance of computer hardware; vehicle service stations (refuelling and maintenance); fuelling of vehicles; in-flight refuelling; maintenance of measuring instruments, tensioning devices, tools and replacement parts; building, construction, assembly, installation and repair of devices for carrier rockets, spacecraft and satellites; building, construction, assembly, installation and repair of carrier rockets, spacecraft and satellites; assistance, help and support in the event of faults and defects in aircraft, spacecraft and satellites (repair); information in relation to the repair of aircraft; providing and procurement of information in relation to the repair of aircraft; installation of hardware for mechanical, electric and computer interfaces between a satellite and a launch rocket, in particular carrier rockets; installation of satellites on carrier rockets: installation of satellites and spacecraft on carrier rockets, in particular mechanical assembly, configuration (installation) of electric and computer connections (hardware); construction, building and expansion of installations, in particular satellites and ground stations and equipment relating thereto; information in relation to repair and construction, building and expansion of installations and equipment in the aeronautics sector; repair, in particular of vehicles and apparatus for locomotion and propulsion by land, air or water, including unmanned aircraft, aircraft, drones and drive motors; installation, repair, maintenance and servicing of electric and electronic installations, equipment, apparatus and devices, in particular for aeronautics, and of encryption installations, instruments, apparatus and devices; services in the field of recycling and disassembly of the aforesaid goods; repair, maintenance and servicing, in particular in the field of vehicles and apparatus for locomotion by land, air or water, and drive motors; repair, in particular in the field of vehicles and apparatus and parts therefor for locomotion by land, air or water, and drive motors; maintenance of computer software; installation, expansion, maintenance, servicing, repair and reconditioning of helicopters and rotorcraft, components, structural parts, fittings and connectors, dynamic components and equipment therefor; installation, expansion, maintenance, servicing, repair and reconditioning of machine coupling and transmission components for helicopters and rotorcraft, motors and engines and drives for helicopters and rotorcraft, main rotors and tail rotors for helicopters and rotorcraft, rotor blades for helicopters and rotorcraft, avionics equipment and apparatus for helicopters and rotorcraft; maintenance, servicing, repair, installation and technical updating of a fleet of helicopters and rotorcraft to comply with

the requirements of national, foreign, civil and military legislative and regulatory requirements; inspection of helicopters and rotorcraft before maintenance, servicing and repair; adaptation of helicopters and rotorcraft to customer requests (installation); painting and varnishing of helicopters and rotorcraft; installation, expansion, maintenance, servicing and repair of nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments, electric systems, apparatus and equipment for recording, transmission or reproduction of sound, images or data, data processing apparatus and equipment, computers, computer hardware, telecommunications machines, apparatus and equipment, all being for use in the field of helicopters and rotorcraft; installation, expansion, maintenance, servicing, repair and reconditioning of flight simulators for helicopters and rotorcraft; technical support, namely technical consultancy in the field of the maintenance, servicing, repair and reconditioning of helicopters and rotorcraft; rental of machines and tools for the maintenance and servicing of helicopters and rotorcraft; information in relation to the repair, maintenance, servicing and reconditioning of helicopters and rotorcraft; providing and procurement of Internet websites offering information relating to the maintenance, servicing, repair and reconditioning of helicopters and rotorcraft; installation, expansion, maintenance, servicing, repair and reconditioning of equipment and apparatus installed in helicopters and rotorcraft, in particular avionics equipment and avionics apparatus, flight control apparatus, flight instruments, navigation apparatus and navigation instruments, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving apparatus and instruments, electric systems, apparatus and equipment for recording, transmission or reproduction of sound, images or data, data processing apparatus and equipment, computers, computer hardware, machines, apparatus and equipment for telecommunications.

Cl.38. Telecommunications; pager and mobile telephone communications, and other electronic communications; communications provided via fibre optic networks; telecommunications via satellite; communications via computer terminals; procurement and providing of telecommunications connections to a global computer network; telephone services; transmission of messages and information; rental of telecommunications apparatus and telecommunications equipment; rental of apparatus and equipment for image transmission; rental of modems; computerised transmission of messages and images; communications via computer terminals, radio and television broadcasting; cellular telephone communication; satellite transmission; rental of access time to computer databases and computer data memories; rental of access time to computers for data processing; telecommunications via satellite and satellite constellations; data transmission via satellites and satellite constellations; procurement, providing, maintenance, servicing and rental of the telecommunications networks of multi-utility companies; electronic message transmission via the Internet, extranets and intranets; communications via radio, telephone, telegraphy, and all other ways of remote data transmission, via videotex, in particular via terminals, computer peripheral apparatus or electronic and/or digital apparatus, video telephones and video conferences; data transmission, in particular in packet-switched operation mode, sending and transmission of electronic documents, e-mail services; forwarding of telephone calls or telecommunications messages; mobile telephone services; satellite transmission; broadcasting of radio and television programmes and multimedia programmes in general (automatic formatting of texts and/or still or moving images and/or music or other sounds) for interactive or other use; communications via data networks in general; telecommunications via satellites and satellite constellations; electronic transmission of messages and data (messaging) via the Internet, extranets and intranets; communications via radio, telephone, telegraphy and remote data transmission devices of all kinds via interactive videography and in particular on terminals, computer peripheral apparatus or electronic and/or digital apparatus, via video telephones and video conferences; data transmission, in particular for the transmission, in particular batch transmission, and sending of computerised and computer-readable documents; e-mail services; services in the field of the transmission and forwarding of calls or telecommunications; services in the field of mobile radio; rental of modem peripheral apparatus; rental of access times to database servers; telecommunications, electronic data transmission, data transmission via computer servers; radio communications, computerised transmission of messages and images; sending and receiving of data, signals and information, being processed by telematics apparatus and telematics equipment, computers or telecommunications apparatus, telecommunications equipment and telecommunications instruments; electric and electronic exchange of computerised and computer-readable data; wireless and secure e-mail services and data transmission; electronic message transmission; electric and electronic monitoring, sending and receiving of data, signals, images and information, transmission of encrypted messages and images; telecommunications via satellite; teleinformatics via terminals; communications via computer terminals; services relating to secure communications via radio telephones and mobile telephones; transmission via satellite; data transmission, data transfer and services for the procurement and providing of online access to data, in particular in the fields of satellite navigation and positioning, media for navigation and position data; preparation,

providing and management of access to available data and information; computerised processing of position and navigation signals, and data for simulations and experiments; preparation, procurement and providing of telecommunications data and telecommunications information on the Internet; secure communication (transmission) of data and voice data, for others; procurement and providing of access to software platforms guaranteeing user authentication, data integrity and data privacy, and file acceptance; documents or electronic data via electronic networks, including the Internet, and access to the aforesaid documents or electronic data; procurement and providing of software platforms for services in connection with the encryption and signing of files, documents or electronic data, for others; procurement and providing of software platforms for services in connection with the secure transfer of files, documents, data or electronic payments via electronic networks, including telephone networks and the Internet; procurement and providing of access to programs on data networks; procurement and providing of user access to a global computer network, in particular the Internet (service providers); computerised transmission of messages and images, in particular high-resolution and very high-resolution images and geographical information; satellite transmission of messages and images, in particular high-resolution and very high-resolution images and geographical information; procurement and providing of access to databases and data memories, in particular databases and data memories containing images recorded from satellites or antenna systems; transmission of data from digital contour line models and geographical information; access to electronic databases and data memories and centres for information retrieval, in particular for drawings, images, photos, charts, maps, lists, aerial photographs, satellite images, surface models, in particular rental of access times, organisation and management of access authorisations; communications in connection with data transmission on computer networks; setting up and implementation of access to databases and data memories on the Internet, in particular procurement and providing of access software; (computerised) transmission of data and images, in particular for global communications networks (the Internet) or for private or user-restricted networks (intranets); communications by means of computer terminals, radio, television broadcasts, mobile telephone services; telecommunications in the field of aircraft, helicopters and rotorcraft; Internet portals in relation to aircraft, helicopters and rotorcraft; transmission of messages, news and information in relation to aircraft, helicopters and rotorcraft by means of electronic communications networks; procurement and providing of computer databases and computer memories containing data in relation to aircraft, helicopters and rotorcraft.

Cl.39. Transport; packaging and storage of goods; travel arrangement; air transport; packaging and storage of goods; storage of aircraft and aircraft parts; freighting; vehicle rental; air traffic management; traffic information; flight safety, in particular providing of information and advice relating to flight safety, technical and operational audits and risk management strategies, traffic supervision measures, traffic guidance measures and pilotage; services for the operation of airports, in particular management, administration and organisation of an airport and securing and handling of flight operation; flight consultancy, in particular information regarding flights; arranging of travel tours; recovery and recycling of aircraft and aircraft parts; rental of aircraft and aerial vehicles; positioning and remote control of satellites and spacecraft, in particular launching and suspension of satellites, for others; flight tracking; transport by means of aircraft, helicopters and rotorcraft; stockpiling of aircraft, helicopters and rotorcraft and replacement parts therefor, for others; leasing of aircraft, helicopters and rotorcraft; charitable services, namely transport by means of aircraft, helicopters and rotorcraft in disaster zones for the providing of urgent humanitarian aid; logistics, shipping, management in relation to replacement aircraft parts.

Cl.41. Education; providing of training; entertainment; sporting and cultural activities; providing of training in the field of aviation and space travel; organisation of aviation and space travel exhibitions for information, providing of training and further training and entertainment purposes; videotape film production; teaching and instruction, education and entertainment; correspondence courses; publication of texts, illustrations, books, newspapers, periodicals, illustrated magazines, magazines, publications in all fields and all forms, comprising electronic and digital publications, publications on sound recording carriers and/or image carriers, multimedia carriers (in particular interactive discs, digital sound CD-ROM5) of multimedia programs (computerised editing of texts and/or still or moving images); organisation of introductory and advanced academic events in all fields of general interest; organisation of further training in all fields of general interest; seminars, study courses and courses; organisation of lectures, forums, congresses and colloquiums; production of radio and television programmes, audiovisual and multimedia programmes (film and recording studios), in particular computerised editing of texts and/or still or moving images and/or music or other sounds and noises, for interactive or other use; organisation of competitions, games and information campaigns and professional or other presentations; production of radio and television information and entertainment programmes, radio and television entertainment, audiovisual and multimedia programmes (film and recording studios), in

particular computerised editing of texts and/or still or moving images and/or music or other sounds and noises, for interactive or other use; organisation of shows; production and rental of films and cassettes, including video cassettes, and sound recording or video carriers and multimedia carriers of all kinds in general (in particular interactive discs, digital sound CD-ROMs); rental of books and other publications; games libraries for loaning and distribution of games, in particular electronic games, through franchising, in particular providing of basic training for employees; editing, in particular editing of texts; providing of news reports, photojournalism; translation; rental of recorders, in particular cassette recorders; recording of films on video cassettes and videotapes; practical training, instruction (teaching) and demonstration in the fields of defence, monitoring, communications and security, reconnaissance and geography; organisation and conducting of courses, practical workshops, seminars, training; editing and publication of books, printed matter, CD-ROMs and film productions, solely in the fields of reconnaissance and geography for defence and security purposes; publication of books and periodicals online; publishing, other than printing; computer courses relating to the operation, performance and security of information and position determining systems; preparation and conducting of colloquiums in the field of the exploitation of satellite data and products derived therefrom; preparation and conducting of conferences in the field of the exploitation of satellite data and products derived therefrom; preparation and conducting of meetings and congresses in the field of the exploitation of satellite data and products derived therefrom; preparation and conducting of seminars in the field of the exploitation of satellite data and products derived therefrom; photography, organisation of exhibitions for cultural and educational purposes, photojournalism, publication of texts, other than publicity texts, in the field of the exploitation of satellite data and products derived therefrom; electronic publication of books and online magazines in the field of the exploitation of satellite data and products derived therefrom; production of television programmes; education, providing of training, entertainment, sporting activities, cultural activities, information relating to educational and entertainment events, film production, services relating to digital images, publication of books; providing of training for aircraft, helicopter and rotorcraft pilots; providing of training for mechanics, technicians and engineers in the field of aircraft, helicopters and rotorcraft; providing of training by means of flight simulators for aircraft, helicopters and rotorcraft; conducting of courses, conferences, seminars, workshops in the field of aircraft, helicopters and rotorcraft and dissemination of training material in connection therewith; conducting of courses, conferences, seminars, workshops in relation to the management, repair, maintenance, servicing and reconditioning of aircraft, helicopters and rotorcraft and flight security and dissemination of training material in connection therewith; publication of books, magazines, periodicals, newspapers, illustrated magazines, catalogues and pamphlets in relation to aircraft, helicopters and rotorcraft; publication of training and maintenance and servicing manuals (handbooks) in relation to aircraft, helicopters and rotorcraft; online library services, namely procurement and providing of electronic library services for the supply of electronic information in the field of aircraft, helicopters and rotorcraft; providing and procurement of non-downloadable electronic publications in relation to aircraft, helicopters and rotorcraft; production of training videos in relation to aircraft, helicopters and rotorcraft; providing and procurement of websites offering information regarding the training of aircraft pilots, helicopter pilots and rotorcraft pilots, mechanics, technicians and engineers; organisation of air shows and flying demonstrations and exhibitions in relation to aircraft, helicopters and rotorcraft for entertainment, cultural and educational purposes; charitable services, namely providing of education, training and consultancy and support for underprivileged young people in the field of aircraft, helicopters and rotorcraft; providing of training for flight personnel; providing of training for maintenance and servicing; operational training; development of aids for the providing of training; support during the creation of training centres.

Cl.42. Scientific and technological services and research and design relating thereto; industrial analysis and research services; design and development of computer hardware and software; computer programming; industrial, scientific and technological services and research and design relating thereto; industrial analysis; testing of computer system installations; computer programming for the creation and recovery of computer data in databases; scientific and technological consultancy, other than commercial; engineering with the aim of providing scientific and technological evaluations, calculations, research and opinions in the field of science and technology; engineering, services in the fields of physics and chemistry; technical consultancy, assessment, research, testing and monitoring in the field of technology, in particular with regard to transport, environmental protection, energy technology; material testing; providing of weather information, in particular weather forecasting; design and development of computer hardware and software; design of computer graphics; engineering, engineering (technical assessment); software maintenance; mechanical research; research in the field of aviation and space travel; technological services in the field of flight simulation; technical project studies; research and consultancy in the field of technology; research and consultancy in the field of environmental protection; industrial design; interior furnishing; design of interior decor; graphic design; maintenance of computer software; certification and recertification of vehicles (quality, standards); technical flight tests; support and

assistance for participants in sporting events, in particular through the organisation and conducting of sporting events for advertising and sales promotion, sponsoring in the form of advertising and financial sponsoring; professional consultancy and drawing up of plans (other than business), namely consultancy for the production, manufacture and finishing of installations, in particular satellites, ground stations and related installations and apparatus, construction consultancy, technical project studies; engineering; conducting of scientific and technical studies, projects and scientific and technical consultancy with regard to satellites, spacecraft, launch rockets, in particular carrier rockets and space stations; preparation and creation of scientific, physical and technical analyses and surveys with regard to the manufacture, use, servicing and maintenance of satellites, spacecraft, launch rockets, in particular carrier rockets and space stations; scientific and technical consultancy and consultations in relation to computers, drawing up of construction plans; technical consultancy relating to the procurement and providing of technical information and knowhow, establishing and configuration, design (development) and management of databases and legal databases; computer programming for electronic apparatus, equipment and instruments, computers, systems for remote data processing and telematics systems, multimedia hardware; multimedia programming; rental of computers, software, scanners, recorders, burners, printers, printer peripheral apparatus and modems; technical and technological design consultancy and conducting of technical and technological project planning other than in relation to business management; franchising, namely procurement and providing of know-how and technical design, planning and research information; franchising, namely installation of software and/or database development and maintenance of software and/or databases and legal databases; programming of software for multimedia apparatus; rental of computers, programs, scanners, recorders, printers and peripheral apparatus for printers; technical consultancy and support, in particular technical organisation and services being necessary for consultancy in the field of telecommunications and information technology; technical and technological testing and development of mechanical, electric and computer interfaces (integration) between a launch rocket, in particular carrier rockets, and a spacecraft or satellites; testing of the compatibility and integrity of electric connections; technical or technological consultancy in the field of telecommunications and data processing; technical consultancy in the field of information technology; computer security services relating to flight security, flight monitoring and flight support based on a satellite infrastructure; technical software consultancy in the field of telecommunications; technical information in relation to the aviation and space travel sector; scientific, technical and technological examination, development and adaptation of telecommunications networks and radio communications networks; design, development and updating (for others) of software (recorded programs) for the management, administration, architecture management, configuration and protection of local or remote networks for speech, images, data and multimedia data communications, tests, inspections, analyses and/or signal monitoring; scientific, technical and technological development, optimisation, performance monitoring and testing of methods, algorithms and processing and software modules for computerised signal processing; inspection, testing, analysis and/or monitoring of system algorithms for generating navigation or cartography data; scientific, technical and technological development, optimisation, inspection (technical testing) and realisation and conducting of technical tests with regard to the performance of methods, algorithms and processing and software modules for generating navigation or cartography data; performance monitoring and testing; signal testing and verification; scientific and technical development of algorithms and methods for computerised signal processing; services for the development and/or providing of results, in particular in the form of analysis reports, graphics, charts and diagrams; scientific and technological services and research and design relating thereto, in particular scientific and technical development, engineering, technical examination, technical consultancy, optimisation and improvement; conducting of industrial analyses and measurements; scientific and technological services and research and design relating thereto in the field of data processing, analysis and conversion; procurement and providing of programs on data networks, production (design, development) and updating of database programs; scientific, technical and technological studies on user requirements and evaluation of the architectures of information and reconnaissance systems, solely in the fields of reconnaissance and geography for defence and security purposes; scientific, technical and technological studies in relation to adaptation, integration, qualification and build-into operations for logistics support, solely in the fields of reconnaissance and geography for defence and security purposes; scientific and technological services and research and design relating thereto, in particular scientific and technical development and engineering, solely in the fields of reconnaissance and geography for defence and security purposes; scientific and technical examination, scientific and technical consultancy, optimisation and improvement, solely in the fields of reconnaissance and geography for defence and security purposes; scientific, technical and technological data processing; scientific, technical and technological data analysis and data conversion in the field of reconnaissance and geography for defence and security; engineering with regard to the design and troubleshooting of digital radio communications networks for the security forces; design, development and updating (for others) of software (recorded programs) for position determination, surveillance and monitoring in specific geographical areas; design, development and updating (for others) of command and monitoring software

(recorded programs) for position determination, surveillance and monitoring in specific geographical areas; engineering with regard to the scientific evaluation, assessment and appraisal of the preparation and/or providing of results, in particular in the form of analytical reports, graphics, charts and diagrams; software programming, in particular for others; software programming and maintenance, including of software platforms for secure end-to-end transactions, management of customer relationships and handling of transactions; procurement and providing of protection and security services for business communications via electronic networks, in particular for protection against illegal network access; scientific, technical and technological consultancy, consultancy, hotlines and maintenance for computer hardware, computer software and wireless data networks in all of the aforesaid fields, scientific, technical and technological consultancy centres in all of the aforesaid fields; testing (technical tests), inspection (technical examination), scientific, technical and technological analysis and/or monitoring of navigation signals; scientific, technical and technological development, optimisation, performance monitoring and testing of methods, algorithms and processing and software modules for the computerised processing of navigation signals; inspections (technical examinations), tests (technical tests), scientific, technical and technological analyses and/or monitoring of system algorithms for generating navigation data; scientific, technical and technological development, optimisation, performance monitoring and testing of methods, algorithms and processing and software modules for generating navigation data; engineering in the field of performance monitoring and testing; engineering in the field of navigation signal testing and verification; engineering in the field of the development of algorithms and methods for computerised navigation signal processing; engineering in the field of the development of algorithms and methods for generating navigation data; scientific evaluation, assessment and appraisal for generating extrapolated data for navigation; engineering with regard to scientific and technological evaluation, assessment, appraisal and research, in particular scientific, technical and technological development, engineering, scientific, technical and technological examination, scientific, technical and technological consultancy, optimisation, calibration, arranging, testing and improvement of antennas, satellite dishes and reflective and radiating objects, technical examination and identification of segments of space in two or three dimensions; scientific, technical and technological measurement, characterisation and verification, scientific, technical and technological examination, digitalisation through scanning and sampling of electromagnetic fields; scientific and technological engineering evaluations, assessments, appraisals and research in the technological field of data processing, data analysis and data conversion; creation (design, development) of database programs; conducting of technical tests, examinations, verification, analyses and/or monitoring of signals belonging to vehicles and apparatus for locomotion and propulsion by land, air and water (in particular helicopters, rotary-wing aircraft and drones); scientific, technical and technological development, optimisation, performance monitoring and testing of methods, algorithms and processing and software modules for the computerised processing of signals belonging to vehicles and apparatus for locomotion and propulsion by land, air and water (in particular helicopters, rotary-wing aircraft and drones); inspections (technical examination), technical tests, technical analyses and/or monitoring of system algorithms for generating data; engineering in the field of performance monitoring and testing in relation to vehicles and apparatus for locomotion and propulsion by land, air or water (in particular helicopters, rotary-wing aircraft and drones); engineering in the field of signal testing and verification; engineering in the field of the development of algorithms and methods for computerised signal processing; scientific evaluation, assessment and appraisal of the preparation and providing of results, in particular in the form of analytical reports, graphics, charts and diagrams; scientific and technological engineering services and research and design relating thereto in the field of data processing, analysis and conversion; scientific, technical and technological examinations, development and adaptation of telecommunications networks and radio communications networks in relation to vehicles and apparatus for locomotion and propulsion by land, air or water (in particular helicopters, rotary-wing aircraft and drones); design, development and updating (for others) of software (recorded programs) for the management, administration, architecture, configuration and protection of local or remote networks for speech, images, data and multimedia data communications networks belonging to vehicles and apparatus for locomotion and propulsion by land, air or water (in particular helicopters, rotary-wing aircraft and drones); design, development and updating (for others) of software (recorded programs) for the design, development, management and securing of access to computer and Internet protocol (IP) networks, programming and maintenance of computer software for military, aviation and space travel applications; research and development of new products for military and aviation applications; network security services for the assessment, monitoring and control of data security within information technology networks; scientific and technological services, namely procurement of data generated by Earth observation satellites, precision measurements of terrain models, physical measurements (characterisation of objects observed from the ground in accordance with spectral signatures, atmospheric influences, geometric and radiometric models from onboard cameras); research and design in the field of imaging methods by means of satellite and the exploitation of related data, namely design of processing methods for observation data from satellites, development of processing protocols for the exploitation of

satellite data with the aim of producing geographical information and engineering in connection with the programming of aerial photographs from a network of observation satellites; industrial analysis and research in the field of satellite imagery and the exploitation of related data; radar research, imaging methods by means of radar; design and development of computers and software; regeneration (recovery) of databases; consultancy in the field of environmental protection; conversion of data and computer programs (other than physical conversion); examination, assessment and surveying; examination, assessment and surveying of oil fields; geological assessment and surveying; geological research; analysis of the exploitation of oil fields; land surveying; crude oil exploration; town planning; production and maintenance of websites, for others; geological exploration; research in the field of cartographical products, country coverage maps and land registers; services relating to technical engineering information and queries with regard to the presentation of online images generated by satellites, in particular geographical images, geographical maps and topographical maps consisting of images generated via satellites and antenna systems; services relating to technical information and queries with regard to the following products: satellites images, in particular geographical images, geographical maps and topographical maps consisting of images generated by satellites and antenna systems; I computerised services relating to the treatment and analysis of aerial photographs or satellite images (monochrome or multi-spectral); physics (research), engineering or information technology services in connection with computerised services in relation to the processing of aerial photographs, satellite images (monochrome or multi-spectral); design of databases for global digital contour line models; science and research applications, studies and projects for developing and validation of geo-data in relation to digital contour line models; industrial analysis and research based on digital contour line models for use in the processing and orthorectification of other geo-data and images, modelling of geophysical processes on Earth, calculating signal dispersion in the telecommunications industry and logistics and security applications in transport (aeronautics, vehicles); consultancy during the planning of crisis intervention; consultancy relating to defence-relevant and security-relevant applications and missions; analysis of the exploitation of oil fields and gas fields; design and development of computers and computer software, computer programming for industry, namely the fire brigade, police and government, with regard to operating systems, customer management, systems for the management of valuables, geographical information systems, computerised construction, real-time visualisation and mobile systems and configuration thereof for use on suitable computer hardware; industrial and scientific research; meteorological information, in particular weather forecasting; design of software; design of computer images; engineering (technical evaluation and assessment); design, research, development, engineering and testing in the field of aircraft, helicopters and rotorcraft; design and development of computers, computer hardware, avionics, communications systems and navigation systems in the field of aircraft, helicopters and rotorcraft; design and development of flight simulators for aircraft, helicopters and rotorcraft; design, development, installation, maintenance and updating of computer software in the field of aircraft, helicopters and rotorcraft; testing of aircraft, helicopters and rotorcraft, in particular security tests; graphic design of schemes for the painting and varnishing of aircraft, helicopters and rotorcraft; rental of flight simulators for aircraft, helicopters and rotorcraft; technical consultancy in the field of aircraft, helicopters and rotorcraft;
