parts of oilfield wellhead machines, namely, chokes, degassers, and centrifuges; power operated pressure control equipment consisting of parts of oilfield wellhead machines, namely, chokes, degassers, centrifugal degassers, hydrogen sulfide mud gas separators, dual mud gas separators for horizontal drilling; machine parts, namely, rubber and metal mechanical o-ring seals used in equipment for oil and gas exploration and production; cutting machines and machine tools, namely, powered machines for cutting or shaping or finishing metals or other materials; precision machine tools, namely, hard metal tools, high speed steel (HSS) tools, carbide tools, ceramic tools, poly crystalline diamond (PCD) tools, and diamond-coated and diamond-uncoated tools, and hard metal tools, all for use in the cutting and forming of material by others; mechanical seals; air-operated power tools, namely, drills, grinders, and millers; drills for the mining industry; electric power drills; pneumatic hand-held drills; power drills; power tools, namely, reamers; electric welding machines; laser welding machines; friction-stir welding tools, namely, welding torches; electric welding machines, namely, friction-stir welding machines; bits for mining machines; bits for power drills; core drilling bits; mining bits; tool bits for machines; bearings, as parts of machines; roller bearings for machines; pump diaphragms; machines, namely, cementing

equipment in the nature of skid-mounted cementing units, batch mixers, liquid additive systems, mechanical cement slurry defoamer, subsea cementing head, casing packer, isolation packer, and solids fraction monitor used in oil and gas exploration and production; laser welding machines; electrodes for welding machines; electrical power generators using geothermal power; electrolysis machines for production of hydrogen gas; and machines for lithium mining; wireline tractors used in oil and gas exploration and production; tongs [parts of machines] used in oil and gas exploration and production for spinning pipes or to grip drilling components and apply torque; percussion hammers [parts of machine] used in oil and gas industry for percussion drilling; air coolers [parts of machines] for cooling systems used in oil and gas industry; evaporators [parts of machines] for use in oil and gas industry to remove particulates from liquids; shakers [parts of machine].

Cl.09. Data processing equipment and computers; fire-extinguishing apparatus; downloadable and recorded computer software to process data used for oil and gas exploration and production in locating, evaluating and producing hydrocarbons; downloadable computer firmware for digital enablement of oilfield tools; automated self-contained electronic surveillance devices that can be deployed to gather information in oil and gas exploration and production facilities; testing and measuring equipment used in oil and gas exploration and production facilities to test performance and efficiency of oil and gas well equipment; petroleum industry equipment, namely, electronic rig instrumentation for monitoring well pressure and volume of returned drilling fluid; micro-processor computer controlled rig-floor monitors with alarms for use in monitoring and displaying drilling equipment and the flow of gases or liquids; electronic pit volume totalizers and return flow sensors for use in blow-out prevention or monitoring of drilling fluid pressure, temperature, viscosity, and composition; electronic drilling recorders, namely, micro-processor controlled drilling mud electronic data logger for use in sensing and logging drilling fluid pressure, temperature, viscosity and composition; electric cables, fiber optic cables; cement testing machines; welding transformers; magnets for industrial purposes; magnets used in oil and gas exploration and production; hydrogen fuel cells; downloadable and recorded computer software for data processing and use in connection with exploring and developing geothermal resources, water management, and carbon dioxide storage and containment; and downloadable and recorded software for optimization of production of oil and gas wells in the fields of oil and gas exploration and production.

Cl.12. Trucks equipped with apparatus to conduct services well testing, evaluating, drilling, completing, producing and repairing rendered in connection with oil and gas wells, and for acquiring, processing, interpreting, storing, presenting and transmitting from one location to another of well site logging data; boats and barges equipped with pumping equipment for fracturing, acidizing, cementing, and sand control in connection with oil and gas wells; land vehicles for cable inspection and on-site oil and gas well measurements; cementing equipment in the nature of cement trucks and cement trailers used in oil and gas exploration and production.

Cl.13. Explosive substances and projectiles in the nature of shaped charges in the oil and gas industry for use in perforating metal casing lining and oil well along with the adjoining earth formation.

Cl.35. Business managing the exploration, production and operations of gas and oil properties for others; advertising and marketing services, namely, promoting the goods and services of others in the fields of oil and gas exploration and production; online procurement for others, namely, purchasing of oil well drilling and well improvement services related to the fields of oil and gas exploration and production; advisory services relating to data processing in the fields of oil and gas exploration and production; business consulting services for the energy industry related to establishing and improving business functions, namely, corporate and project strategies, organization management, operations management, operations improvement, technology management, mergers and acquisitions, and company integration.

Cl.37. Construction project management services for others in the fields of oil and gas exploration

and production; oil and gas drilling; consulting services in the fields of oil and gas well drilling; maintenance of wellbore area in oil and gas well drilling, namely, sand control services related to the fields of oil and gas well drilling; oil pumping, namely, artificial lift services in the fields of oil and gas well drilling; installation, maintenance, and repair of oil separators; rental of well drilling tools in connection with the fields of geothermal resources, water management, and carbon dioxide storage and containment; repair and maintenance of oil and gas drilling equipment and facilities; subterranean well drilling services; cementing services for oil and gas wells; drilling of wells; rental of drilling platforms; installation and maintenance of irrigation systems; installation and repair of irrigation devices; rental of irrigation and well drilling tools used in connection with irrigation services and oil and gas exploration and production; well improvement services, namely, enhanced oil recovery services for enhancing well production; recovery services, namely excavation to recover lost instruments and tools in well during oil and gas exploration and production; providing technical advice in the field of oil and gas drilling, namely technical advice on drilling fluids and drilling fluid use, and technical advice on data control, products control, and pressure control; and lithium mining extraction services; remedial services for oil and gas production, namely, refracturing, hydraulic fracturing of subsurface geologic formations, optimizing artificial lift operations, matrix stimulating operations, acid stimulation services, and post perforating treatments to remove debris from existing perforations, all for enhancing well production; rental of wireline tractors used in oil and gas exploration and production.

Cl.39. Waste oil collection for recycling; transportation and physical storage of captured carbon dioxide for others; distribution of electricity from geothermal power; and storage and distribution of hydrogen gas; transportation logistics services, namely, planning and scheduling the transport of drilling rigs and vessels used in oil and gas exploration and production.

Cl.40. Perforating services in connection with the oil and gas industries; rental of production facilities and plants for others to allow production of oil and gas while full field development is being planned and permanent facilities are being built; generating electricity from geothermal energy; carbon capture for others using direct capture technology, absorption, adsorption, chemical looping, membrane gas separation, and gas hydration; and gas production services, namely hydrogen production.

Cl.41. Educational services, namely, conducting classes, seminars, conferences, and workshops in the fields of oil and gas exploration, measurement, detection, and production, geothermal resources, water management, storage and containment of carbon dioxide, and environmental issues and distribution of course material in connection therewith.

Cl.42. Providing information, news and commentary in the fields of oil and gas exploration; technical support services, namely, troubleshooting of computer software problems used in the fields of oil and gas exploration and production; updating of computer software for others; providing technical information updates of computer software used in the fields of oil and gas exploration and production; computer software consultation; consultation services in the fields of selection, testing, implementation and use of computer hardware and software systems for others; providing online information in the fields of computer software used in the fields of oil and gas exploration and production; testing, analysis, and evaluation of hydrocarbon properties of oil and gas reserves; providing measurements and downhole telemetry while drilling; engineering services in the field of environmental compliance; conducting environmental wellbore survey services in the field of oil and gas exploration and production, geothermal resources, water management, and storage and containment of carbon dioxide industries; oil and gas well logging and testing services; inspection services, namely, inspection of oil and gas well fields and detection of leaks in oil and gas well structures and operations thereof; sampling services, namely sampling of oil and gas for quality analysis purposes; performing oil and gas well diagnostics; oil and gas well surveying; surveying of oil-bearing seams; non-medical ultrasound imaging services in connection with oil and gas exploration; conducting magnetic resonance imaging interpretation and analysis for the oil and gas

industries; computer modeling services, namely, computer simulation of drilling processes and operation of facilities used in oil and gas exploration and production; engineering, modeling, and designing of wells and drilling parameters, namely, models or plans for constructing and operating facilities for oil and gas wells in connection with drilling; software as a service (SAAS) services featuring software for use in optimization of oil and gas exploration and production solutions, including cloud based solutions, software-as-a-service solutions, machine learning, artificial intelligence, and on-premise solutions; design of seismic acquisition parameters, namely, models or plans for acquiring seismic data used in connection with oil and gas drilling operations; rental of extended well testing facilities for others to allow production of oil and gas while full field development is being planned and permanent facilities are being built; subterranean oil well testing services for use in connection with subterranean oil well drilling operations; engineering services in connection with the selection and use of specialized equipment for subterranean well drilling operations; oil well testing, namely providing oil well pressure control testing services for others in the oil and gas industries; oil and gas exploration; engineering services in connection with exploring and developing geothermal resources, water management, and carbon dioxide storage and containment; consulting services in the field of research and development in the field of geothermal energy, namely geothermal resources, water management, and carbon dioxide storage and containment; rental of computer software for data processing and use in connection with exploring and developing geothermal resources, water management, and carbon dioxide storage and containment; engineering services in the field of carbon capture and storage; research and development in the field of carbon capture and storage; engineering services in the field of lithium extraction; research and development in the field of lithium extraction; engineering services in the field of geothermal power production and distribution; research and development in the field of geothermal power production and distribution; engineering services in the field of hydrogen production, storage and distribution; research and development in the field of hydrogen production, storage and distribution; and software as a service (SAAS) services featuring computer software to process data used for oil and gas exploration and production in locating, evaluating and producing hydrocarbons.

C1.07. Machines, machine tools and industrial robots for processing and shaping wood, metals, glass, plastics and minerals, 3d printers; construction machines and robotic mechanisms (machines) for use in construction: bulldozers, diggers (machines), excavators, road construction and road paving machines, drilling machines, rock drilling machines, road sweeping machines; lifting, loading and transmission machines and robotic mechanisms (machines) for lifting, loading and transmission purposes: elevators, escalators and cranes; machines and robotic mechanisms (machines) for use in agriculture and animal breeding, machines and robotic mechanisms (machines) for processing cereals, fruits, vegetables and food; machines for preparing and processing beverages; engines and motors, other than for land vehicles, parts and fittings therefor: hydraulic and pneumatic controls for engines and motors, brakes other than for vehicles, brake linings for engines, crankshafts, gearboxes, other than for land vehicles, cylinders for engines, pistons for engines, turbines, not for land vehicles, filters for engines and motors, oil, air and fuel filters for land vehicle engines, exhausts for land vehicle engines, exhaust manifolds for land vehicle engines, engine cylinders for land vehicles, engine cylinder heads for land vehicles, pistons for land vehicle engines, carburetors for land vehicles, fuel conversion apparatus for land vehicle engines, injectors for land vehicle engines, fuel economizers for land vehicle engines, pumps for land vehicle engines, valves for land vehicle engines, starter motors for land vehicles, dynamos for land vehicle engines, sparking plugs for land vehicle engines; bearings (parts of machines), roller or ball bearings; machines for mounting and detaching tires; alternators, current generators, electric generators, current generators operated with solar energy; painting machines, automatic spray guns for paint, electric, hydraulic and pneumatic punching machines and guns, electric adhesive tape dispensers [machines], electric guns for compressed gas or liquid spraying machines, electric hand drills, electric hand saws, electric jigsaw machines, spiral machines, compressed air machines, compressors (machines), vehicle washing installations, industrial robots with the abovementioned functions; electric and gas-operated welding apparatus, electric arc welding apparatus, electric soldering apparatus, electric arc cutting apparatus, electrodes for welding machines, industrial robots (machines) with the abovementioned functions; printing machines; packaging machines, filling, plugging and sealing machines, labellers (machines), sorting machines, industrial robots (machines) with the abovementioned functions, electric packing machines for plugging and sealing of plastics; machines for textile processing, sewing machines, industrial robots (machines) with the abovementioned functions; pumps [machines], self-regulating fuel pumps, fuel dispensing pumps for service stations, self-regulating fuel pumps; electric kitchen machines for chopping, grinding, crushing, mixing and mincing foodstuff, washing machines, laundry washing machines, dishwashers, spin driers (not heated), electric cleaning machines for cleaning floors, carpets or floorings, vacuum cleaners and parts thereof; automatic vending machines; galvanizing and electroplating machines; electric door openers and closers.

C1.08. Forks, spoons, knives and non-electric cutters, slicers, peelers for kitchen use, including those

made of precious metals; side arms and blades (weapons); tools and apparatus included in this class for personal beauty care use: tools and apparatus included in this class for shaving, depilation, manicure and pedicure, electric hand implements for straightening and curling hair, scissors; hand-operated [non-electric] hand tools included in this class for the repair of machines, apparatus and vehicles and for use in construction, agriculture, horticulture and forestry, none of them being power tools; electric or non-electric irons; steam irons; handles for hand-operated hand tools.

Cl.09. Measurement apparatus and equipment including those for scientific, nautical, topographic, meteorologic, industrial and laboratory purposes, thermometers, not for medical purposes, barometers, ammeters, voltmeters, hygrometers, testing apparatus not for medical purposes, telescopes, periscopes, directional compasses, speed indicators, laboratory apparatus, microscopes, magnifying glasses, stills, binoculars, ovens and furnaces for laboratory experiments; apparatus for recording, transmission or reproduction of sound or images, cameras, photographic cameras, television apparatus, video recorders, CD and DVD players and recorders, MP3 players, computers, desktop computers, tablet computers, wearable technological devices (smart watches, wristbands, head-mounted devices) microphones, loudspeakers, earphones, telecommunications apparatus, apparatus for the reproduction of sound or images, computer peripheral devices, cell phones, covers for cell phones, telephone apparatus, computer printers, scanners [data processing equipment], photocopiers; magnetic and optical data carriers and computer software and programs recorded thereto, downloadable and recordable electronic publications, encoded magnetic and optical cards, movies, TV series and video music clips recorded on magnetic, optical and electronic media; antennas, satellite antennas, amplifiers for antennas, parts of the aforementioned goods; ticket dispensing terminals, electronic, automatic teller machines (atm); electronic components used in the electronic parts of machines and apparatus: semi-conductors, electronic circuits, integrated circuits, chips [integrated circuits], diodes, transistors [electronic], magnetic heads for electronic apparatus, electronic locks, photocells, remote control apparatus for opening and closing doors, optical sensors; counters and quantity indicators for measuring the quantity of consumption, automatic time switches; clothing for protection against accidents, irradiation and fire, safety vests and life-saving apparatus and equipment; eyeglasses, sunglasses, optical lenses and cases, containers, parts and components thereof; apparatus and instruments for conducting, transforming, accumulating or controlling electricity, electric plugs, junction boxes [electricity], electric switches, circuit breakers, fuses, lighting ballasts, battery starter cables, electrical circuit boards, electric resistances, electric sockets, transformers [electricity], electrical adapters, battery chargers, electric door bells, electric and electronic cables, batteries, electric accumulators, solar panels for production of electricity; alarms and anti-theft alarms, other than for vehicles, electric bells; signaling apparatus and instruments, luminous or mechanical signs for traffic use; fire extinguishing apparatus, fire engines, fire hose and fire hose nozzles; radar apparatus, sonars, night vision apparatus and instruments; decorative magnets; metronomes.

Cl.11. Lighting installations; lights for vehicles and interior-exterior spaces; heating installations using solid, liquid or gas fuels or electricity: central heating boilers, boilers for heating installations, radiators [heating], heat exchangers, not parts of machines, stoves, kitchen stoves, solar thermal collectors [heating]; steam, gas and fog generators: steam boilers, other than parts of machines, acetylene generators, oxygen generators, nitrogen generators; installations for air-conditioning and ventilating; cooling installations and freezers; electric and gas-powered devices, installations and apparatus for cooking, drying and boiling: cookers, electric cooking pots, electric water heaters, barbecues, electric laundry driers; hair driers; hand drying apparatus; sanitary installations: taps [faucets], shower installations, toilets [water-closets], shower and bathing cubicles, bath tubs, toilet seats, sinks, wash-hand basins [parts of sanitary installations], washers for water taps, mixing valves for faucets, water control valves for faucets; water softening apparatus; water purification apparatus; water purification installations; waste water purification installations; electric bed warmers and electric blankets, not for medical use; electric pillow warmers; electric or non-electric foot warmers; hot water bottles, electrically heated socks; filters for aquariums and aquarium filtration apparatus; industrial type installations for cooking, drying and cooling purposes; pasteurizers and sterilizers.

Cl.21. Hand-operated, non-electric, cleaning instruments and appliances: brushes, metallic wool for cleaning, sponges for cleaning, steel wool for cleaning, cloths of textile for cleaning, gloves for dishwashing, non-electric polishing machines for household purposes, brooms for carpets, mops, excluding paintbrushes; toothbrushes, electric toothbrushes, dental floss, shaving brushes, hair brushes, combs; non-electric household or kitchen utensils, included in this class, [other than forks, knives, spoons], services [dishes], pots and pans, bottle openers, flower pots, drinking straws, non-electric cooking utensils; ironing boards and shaped covers therefor, drying racks for washing, clothes drying hangers; cages for household pets, indoor aquariums, vivariums and indoor terrariums for animals and plant cultivation; ornaments and decorative goods of glass, porcelain, earthenware or clay namely statues, figurines, vases and trophies; mouse traps, insect traps, electric devices for attracting and killing flies and insects, fly catchers, fly swatters; perfume burners, perfume sprayers, perfume vaporizers, electric or non-electric make-up removing appliances, powder puffs, toilet cases; nozzles for sprinkler hose, nozzles for watering cans, watering devices, garden watering cans; unworked or semi-worked glass, except building glass, mosaics of glass and powdered glass for decoration, except for building, glass wool other than for insulation or textile use.

Cl.35. Advertising, marketing and public relations; organization of exhibitions and trade fairs for commercial or advertising purposes; development of advertising concepts; provision of an online marketplace for buyers and sellers of goods and services; office functions; secretarial services; arranging newspaper subscriptions for others; compilation of statistics; rental of office machines; systemization of information into computer databases; telephone answering for unavailable subscribers; business management, business administration and business consultancy; accounting; commercial consultancy services; personnel recruitment, personnel placement, employment agencies, import-export agencies; temporary personnel placement services; auctioneering; the bringing together, for the benefit of others, of a variety of goods, namely bleaching and cleaning preparations, detergents other than for use in manufacturing operations and for medical purposes, laundry bleach, fabric softeners for laundry use, stain removers, dishwasher detergents, perfumery, non-medicated cosmetics, fragrances, deodorants for personal use and animals, soaps, dental care preparations, namely dentifrices, denture polishes, tooth whitening preparations, mouth washes, not for medical purposes, abrasive preparations, emery cloth, sandpaper, pumice stone, abrasive pastes, polishing preparations for leather, vinyl, metal and wood, polishes and creams for leather, vinyl, metal and wood, wax for polishing, machines, machine tools and industrial robots for processing and shaping wood, metals, glass, plastics and minerals, 3D printers, construction machines and robotic mechanisms (machines) for use in construction, namely bulldozers, diggers (machines), excavators, road construction and road paving machines, drilling machines, rock drilling machines, road sweeping machines, lifting, loading and transmission machines and robotic mechanisms (machines) for lifting, loading and transmission purposes, namely elevators, escalators and cranes, machines and robotic mechanisms (machines) for use in agriculture and animal breeding, machines and robotic mechanisms (machines) for processing cereals, fruits, vegetables and food, machines for preparing and processing beverages, engines and motors, other than for land vehicles, parts and fittings therefor, namely hydraulic and pneumatic controls for engines and motors, brakes other than for vehicles, brake linings for engines, crankshafts, gearboxes, other than for land vehicles, cylinders for engines, pistons for engines, turbines, not for land vehicles, filters for engines and motors, oil, air and fuel filters for land vehicle engines, exhausts for land vehicle engines, exhaust manifolds for land vehicle engines, engine cylinders for land vehicles, engine cylinder heads for land vehicles, pistons for land vehicle engines, carburetors for land vehicles, fuel conversion apparatus for land vehicle engines, injectors for land vehicle engines, fuel economizers for land vehicle engines, pumps for land vehicle engines, valves for land vehicle engines, starter motors for land vehicles, dynamos for land vehicle engines, sparking plugs for land vehicle engines, bearings (parts of machines), roller or ball bearings, machines for mounting and detaching tires, alternators, current generators, electric generators, current generators operated with solar energy, painting machines, automatic spray guns for paint, electric, hydraulic and pneumatic punching machines and guns, electric adhesive tape dispensers [machines], electric guns for compressed gas or liquid spraying machines, electric hand

drills, electric hand saws, electric jigsaw machines, spiral machines, compressed air machines, compressors (machines), vehicle washing installations, industrial robots with the abovementioned functions, electric and gas-operated welding apparatus, electric arc welding apparatus, electric soldering apparatus, electric arc cutting apparatus, electrodes for welding machines, industrial robots (machines) with the abovementioned functions, printing machines, packaging machines, filling, plugging and sealing machines, labellers (machines), sorting machines, industrial robots (machines) with the abovementioned functions, electric packing machines for plugging and sealing of plastics, machines for textile processing, sewing machines, industrial robots (machines) with the abovementioned functions, pumps [machines], self-regulating fuel pumps, fuel dispensing pumps for service stations, self-regulating fuel pumps, electric kitchen machines for chopping, grinding, crushing, mixing and mincing foodstuff, washing machines, laundry washing machines, dishwashers, spin driers (not heated), electric cleaning machines for cleaning floors, carpets or floorings, vacuum cleaners and parts thereof, automatic vending machines, galvanizing and electroplating machines, electric door openers and closers, forks, spoons, knives and non-electric cutters, slicers, peelers for kitchen use, including those made of precious metals, side arms and blades (weapons), tools and apparatus for personal beauty care use, namely tools and apparatus for shaving, depilation, manicure and pedicure, electric hand implements for straightening and curling hair, scissors, hand-operated [non-electric] hand tools for the repair of machines, apparatus and vehicles and for use in construction, agriculture, horticulture and forestry, none of them being power tools, electric or nonelectric irons, steam irons, handles for hand-operated hand tools, measurement apparatus and equipment including those for scientific, nautical, topographic, meteorologic, industrial and laboratory purposes, thermometers, not for medical purposes, barometers, ammeters, voltmeters, hygrometers, testing apparatus not for medical purposes, telescopes, periscopes, directional compasses, speed indicators, laboratory apparatus, microscopes, magnifying glasses, stills, binoculars, ovens and furnaces for laboratory experiments, apparatus for recording, transmission or reproduction of sound or images, cameras, photographic cameras, television apparatus, video recorders, cd and dvd players and recorders, MP3 players, computers, desktop computers, tablet computers, wearable technological devices (smart watches, wristbands, head-mounted devices) microphones, loudspeakers, earphones, telecommunications apparatus, apparatus for the reproduction of sound or images, computer peripheral devices, cell phones, covers for cell phones, telephone apparatus, computer printers, scanners [data processing equipment], photocopiers, magnetic and optical data carriers and computer software and programs recorded thereto, downloadable and recordable electronic publications, encoded magnetic and optical cards, movies, TV series and video music clips recorded on magnetic, optical and electronic media, antennas, satellite antennas, amplifiers for antennas, parts of the aforementioned goods, ticket dispensing terminals, electronic, automatic teller machines (atm), electronic components used in the electronic parts of machines and apparatus, namely semi-conductors, electronic circuits, integrated circuits, chips [integrated circuits], diodes, transistors [electronic], magnetic heads for electronic apparatus, electronic locks, photocells, remote control apparatus for opening and closing doors, optical sensors, counters and quantity indicators for measuring the quantity of consumption, automatic time switches, clothing for protection against accidents, irradiation and fire, safety vests and life-saving apparatus and equipment, eyeglasses, sunglasses, optical lenses and cases, containers, parts and components thereof, apparatus and instruments for conducting, transforming, accumulating or controlling electricity, electric plugs, junction boxes [electricity], electric switches, circuit breakers, fuses, lighting ballasts, battery starter cables, electrical circuit boards, electric resistances, electric sockets, transformers [electricity], electrical adapters, battery chargers, electric door bells, electric and electronic cables, batteries, electric accumulators, solar panels for production of electricity, alarms and anti-theft alarms, other than for vehicles, electric bells, signaling apparatus and instruments, luminous or mechanical signs for traffic use, fire extinguishing apparatus, fire engines, fire hose and fire hose nozzles, radar apparatus, sonars, night vision apparatus and instruments, decorative magnets, metronomes, lighting installations, lights Speech recognition software; software for medical transcription, coding and reimbursement; software for creating and maintaining medical, patient and healthcare records; computer hardware for voice transcription; electronic apparatus for testing the sterility of medical equipment; computer hardware and downloadable computer software for use in the healthcare field in connection with reporting, scanning and medical coding of patient medical information; computer hardware and downloadable computer software for use for reporting and clinical documentation of patient medical information; computer hardware and downloadable computer software for creation of clinical documentation of patient medical information in health information systems; downloadable computer software for natural language, speech, speaker, voice and/or voice-print recognition, identification, verification and/or processing for use in the field of medical records and health information management; computer hardware and downloadable software for managing patient medical information; computer software for retrieval, display, and browsing of medical information; computer hardware in the nature of stand-alone voice controlled devices for medical and data transcription; downloadable audio to text transcription computer software used for controlling stand-alone voice controlled devices; wireless communication devices for voice and data transmission; computer hardware and downloadable software used for the control of voice controlled information and communication devices; downloadable voice recognition software; downloadable computer software for medical records management, namely, software for recording and reporting patient medical data for billing, third party payer and regulatory agencies, and for assessing, tracking, and reporting infections; downloadable computer software for natural language, speech, speaker, voice and/or voice-print recognition, identification, verification and/or processing for use in the fields of transcription, healthcare documentation, healthcare records management; computer software and computer software development tools for speech and language recognition; computer software for natural language, speech, speaker, voice and/or voice-print recognition, identification, verification and/or processing for use in the fields of medical records, medical coding, compliance and health information management; downloadable computer software for use in calculating, analyzing, grouping and processing patient information for healthcare billing and government reimbursement; downloadable computer software for use in dentistry to utilize images of teeth and the mouth, and for designing and milling dental restorations, namely, crowns, bridges, inlays, onlays and veneers; downloadable computer software for use in the reporting of and the clinical documentation of patient medical information on portable devices; downloadable computer software for use with stethoscopes and in the field of cardiac and pulmonary auscultation for the display of sounds primarily related to the heart and lung; downloadable computer software for use with stethoscopes for use in the field of medicine for auscultation and the transmission primarily of heart and lung sounds; downloadable computer software, namely, a desktop transcription platform featuring voice capture, integrated speech recognition, interpretation and formatting, editing tools for transcriptionists, and document management and distribution; computer hardware and downloadable software for the delivery of enterprise and internet-based software applications for use in connection with healthcare transcription, dictation, electronic signature and speech recognition solutions; downloadable computer software, namely, integrated software applications designed to organize and integrate medical record information; downloadable software for the delivery of enterprise applications targeting the creation and connection of mission critical healthcare information including transcription, dictation, electronic signature and speech recognition solutions; computer transcription hardware and downloadable computer transcription software for use in the medical field to allow

physicians the ability to dictate, self-edit and electronically sign medical reports and documents or send to transcription service for return to electronic inbox upon completion for signature; dictation microphones incorporating a light pen; downloadable computer software and mobile applications using artificial intelligence and speech recognition to assist in the entering of data in health information systems; downloadable mobile application software featuring a database of recorded heart and lung sounds for use as a teaching aid in training auscultation and cardiovascular and pulmonary diagnostics; downloadable mobile application software featuring a database of recorded heart and lung sounds for use by medical personnel in improving the ability to recognize benign and pathological heart sounds and murmurs; downloadable mobile application software for providing continuing professional education and training for medical personnel in the field of auscultation and cardiovascular and pulmonary diagnostics; downloadable mobile applications using speech recognition for use by medical and healthcare professionals for the documentation of patient medical information and electronic health records; downloadable mobile applications for use by medical and healthcare professionals for charge capture, order entry and dictation of e-prescriptions; downloadable software application that enables users to monitor and improve compliance with governmental guidelines and best practices in the use and maintenance of intravenous lines, medical devices for use in connection therewith, and medical dressings for use at infusion catheter and intravenous sites; downloadable software application that enables users to monitor and improve disease infection control, workflows, clinical outcomes and compliance with governmental guidelines and guidelines of professional organizations; downloadable software application that enables users to monitor and improve best practices in the use, care and maintenance of medical devices, namely, intravenous lines and medical devices for use in connection therewith, medical dressings for use at infusion catheter and intravenous sites, medical tapes and adhesives used for securing medical tubing and devices, medical tubing, and medical apparatus for warming and cooling a patient's body temperature, managing patient hypothermia, warming blood and iv fluids, and monitoring and recording a patient's body temperature; downloadable software application that enables users to monitor and reduce infection rates and intravenous line complications, protect skin from damage, and manage wound sites, conditions that impact skin, the care and maintenance of skin, and blood stream infections; downloadable software application that enables users to monitor, and improve best practices in, sterilization procedures used in the medical field; downloadable software in the nature of a mobile application for providing information to healthcare professionals to assist in the provision of wound care services to patients and to assist in ordering or purchasing products; scanners and related downloadable software for capturing images of the mouth and teeth for use in dentistry; laboratory equipment and supplies, namely, laboratory analysis kit comprising wands for collecting bacteria and pre-measured chemical solutions for preparing standardized inoculums for antimicrobial susceptibility testing in a clinical laboratory, sold as a unit; laboratory equipment, namely solid phase extraction disks, extraction disk cartridges and high density glass beads for use as filter aids; laboratory equipment, namely, membrane filters for liquid; laboratory equipment, namely, membranes, capillary membranes, flat membranes, and porous tubular membranes, and modules containing said membranes for the equipment, namely, liquid concentrators, purifiers, and filters; laboratory filters; filters for use in laboratory equipment; laboratory filters in the nature of membrane filters made of synthetic or regenerated polymers in the shapes of flat films, hollow fibers, tubes and pipes; laboratory filters in the nature of membrane filters in the shapes of hollow fibers, tubes and pipes connected with textile threads; scientific equipment, namely, laboratory filters for osmosis and reverse osmosis, sterilization processes, ultrafiltration, and microfiltration; laboratory equipment, namely, microporous hollow fibers for conducting membrane separations and apparatus containing the same; laboratory equipment and supplies, namely, microporous hollow fibers used in contactors, degassers, filters, concentrators, purifiers, diffusers, and medical laboratory equipment; membranes made of synthetic or regenerated polymers in the form of hollow fibers, tubing, piping and film for laboratory separation processes, and modules equipped with the aforesaid membranes for scientific laboratory purposes, namely, filtration modules, modules for osmosis and reverse osmosis, sterilizers, ultrafiltration modules, debubblers, degassers, mass transfer devices; laboratory equipment, namely, membranes, capillary membranes, flat membranes, and porous tubular membranes; laboratory filter membranes used in

microfiltration and ultrafiltration; technical apparatus, namely, filtering membranes for technical or medical separations and transfers; filters for blood and blood components for laboratory use; ophthalmic lenses and ophthalmic prisms; indicator strips for indicating temperatures for use in sterilization and safety-monitoring.

Cl.10. Orthopedic articles; orthopedic inserts for footwear; hosiery for medical, surgical, and orthopedic purposes; stethoscopes; orthopedic and compression bandages and wraps; medical and surgical drapes, sheets and gowns; medical connectors and closures and component parts thereof for use in connection with intravenous (iv) lines and medical fluid management, delivery, extraction and removal; patient warming systems; medical devices for closing wounds; wound drainage apparatus; wound suction apparatus; negative pressure wound therapy systems; incubators for medical purposes; orthodontic brackets and appliances; dental crowns; membranes used in medical devices including blood treatment and dialysis; cases fitted for medical instruments; capillaries made of polymers and arranged in the form of mats for heat exchangers applied in medicine; implant abutments for dental purposes; dental apparatus and instruments for producing, relining and repair of dental prostheses; dental curing lights; dental apparatus, namely, intra-oral light systems; dental devices and apparatus, namely, mixers and dispensers for dental impression material; dental instruments, namely, mandrels, burs, discs, cups, wheels, points, brushes, and abrasive strips, used to grind, polish or finish dental restorations; dental instruments, namely, custom dental matrices for use with dental restoratives and dental composite materials; dental instruments, namely, dental prophylaxis angles and dental prophylaxis cups, for use in cleaning teeth and dental hygiene procedures; dental instruments, namely, disposable prophyl angles; dental syringes; dental apparatus, namely, dispensing guns specially adapted for dental purposes for use in dispensing dental restorative material; finishing and polishing discs for dental use; dental instruments, namely, scissors, crimping pliers, contouring pliers and impression trays; applicators and dispensers for dental primers, cements, adhesives, impression materials and restorative materials; glass-fiber posts used in dental restorative procedures; dental prophylaxis angles and dental prophylaxis cups for use in cleaning teeth and dental hygiene procedures; dental instruments, namely, preparation dental instruments for mixing, dispensation and application of dental impression materials, bite checking materials; dental filling and bonding material contained in disposable applicators; cutting and grinding discs for dental applications; orthodontic appliances, namely, pliers, braces, lugs, wires, pins and brackets; orthodontic buccal tubes; orthodontic rubber bands; wound suction apparatus, wound drainage apparatus, and parts and fittings therefor; disposable negative pressure wound therapy device in the nature of a subatmospheric pressure source and related tubing, all for use with wound interface drainage receptacles, and all for promoting wound healing; eartips for stethoscopes; stethoscopes and parts and fittings therefor; electronic noise reducer sold as an integral component of stethoscopes for enhancing auditory capabilities for auscultation; medical instrument consisting of a wireless electronic transceiver for use in conjunction with electronic stethoscopes for the recording and display of heart sounds and other physiological acoustic signals; elastic bandages; casting tape for orthopedic purposes; orthopedic splints; reinforcing strips, composite fabrics containing fiberglass and resins for use in making casts; support bandages; therapeutic compression wraps; padding for orthopedic casts; orthopedic casting tools; surgical sterile sheets; medical isolation gowns; protective barriers in the nature of medical drapes; medical electrodes; cardiac electrodes; electrodes for external defibrillators; medical electrodes with or without chemical conductors and wet gels for use in cardiac, electrocardiograph, electroencephalograph and other types of patient monitoring; medical leads and connectors for use with medical electrodes; defibrillation pads; electrosurgical pads, plates and adapters to remove rf current from a patient's body during electrosurgery; padding for use between medical equipment and patients or for elevating or positioning limbs; pouches for holding surgical and medical instruments; surgical compresses; surgical wraps; medical table sheets for examining tables and operating tables; thermometers for medical use; therapeutic hot and cold therapy packs; surgical skin staplers; drainage tubes for medical purposes; receptacles for collecting wound drainage; medical and surgical apparatus for tissue transplantation; electronic temperature monitors for medical use; blankets for medical purposes; medical apparatus for human and veterinary use for warming and cooling a patient's body

temperature, comprising an air convective device, a hose, a gown or blanket, sensors, controls, and parts and fittings therefor; medical apparatus for intravenous administration of fluids, namely, fluid warmers; medical apparel in the nature of lab coats for use in medical examination and treatment; medical device control system, namely, a system comprised of microprocessor controlled pumps, wound dressings and connecting tubing for providing alternating negative pressure to promote tissue granulation and decompression, flap and graft survival, and to remove infectious materials; electronic medical appliances for wound healing; medical device control systems comprised of medical therapeutic pumps and medical connection tubing for controlled delivery of therapeutic pressure to wound healing devices; medical fluid injectors; medical devices for managing fluids; medical devices for fluid delivery, extraction and removal; medical instruments, namely, hemostats that clamp blood vessels to diminish or halt blood flow; vacuum pumps for medical purposes; medical devices, namely pump units for promoting wound healing, receptacles for collecting wound drainage, and parts and accessories for the foregoing; medical devices, namely, medical connectors and component parts thereof for use with products for transferring fluids; plastic closures for use in covering fluid connectors and ends on fluid transportation lines and ports; medical devices, namely, tamper-evident devices for use in connection with intravenous (iv) lines; wound therapy system comprised of wound treatment apparatus, wound dressings, valves, tubes and straps with holsters; accessory for wound treatment apparatus, namely, strap and holster used to secure apparatus to patient; medical equipment, namely, membranes made of polymers in the form of hollow fibers for separation processes for use in medical apparatus for blood treatment, dialysis, hemodiafiltration, hemofiltration, endotoxin filtration; medical equipment, namely, membranes, capillary membranes and flat membranes, and modules containing said membranes for medical equipment, namely, hemoconcentration apparatus, hemodialysis apparatus, hemodiafiltration apparatus, plasmapheresis apparatus, oxygenators, and plasma fractionation; hypodermic needles; filters for medical purposes, namely, blood filters; hemodialysis apparatus; membranes for blood filtration, hemodialysis, hemofiltration, hemodiafiltration, and oxygenation; membranes for use in medical apparatus made of synthetic or regenerated polymers in the form of capillaries, tubing, piping, and film for hemodialysis, hemofiltration, hemodiafiltration, endotoxin filtration, plasmapheresis, hemoconcentration; membranes for use in medical apparatus made of synthetic or regenerated polymers in form of films, hollow fibers, tubings and pipings for separation processes, as well as bundles or fabrics of the aforesaid hollow fibers, tubings and pipings in combination with textile threads all for use in hemodialysis, hemofiltration, hemodiafiltration, endotoxin filtration, plasmapheresis, hemoconcentration; capillaries of hollow fibers or tubes made of polymers and arranged in the form of mats for heat exchangers applied in medicine; membranes made of polymers in the form of hollow fibers for separation processes for use in medical apparatus for blood treatment, namely, dialysis filters, hemodiafilters, hemofilters, endotoxin filters, plasmapheresis filters, blood oxygenators, microfiltration, ultrafiltration, and sterilization units for medical purposes, air filtration for medical ventilators; membranes made of synthetic or regenerated polymers in the form of hollow fibers, tubing, piping and film for separation processes, and modules equipped with the aforesaid membranes for use in medical apparatus, namely, dialysis and plasmapheresis filters in the nature of hemodialysers, hemofiltration, hemofiltration modules, hemodiafiltration, hemodiafiltration modules, endotoxin filtration modules, plasmapheresis modules, and hemoconcentration modules; membranes in the nature of hollow fibers for medical therapeutic purposes; membranes in the nature of hollow fibers for medical therapeutic purposes, sold empty, for use in for blood filtration, hemodialysis, hemofiltration, hemodiafiltration, and oxygenation; negative pressure wound therapy device in the nature of a subatmospheric pressure source and related tubing, all for use with wound interface drainage receptacles, and all for promoting wound healing; orthopedic apparatus and instruments for diagnostic and therapeutic use; orthopedic, orthotic, chiropody, foot care and veterinary apparatus and instruments, namely, orthopedic cushions and padding, orthopedic padding for the treatment and prevention of oedema or scarring, orthopedic padding for use in combination with casts or with prosthetics, medical and surgical gloves; orthopedic cushions and padding, namely, pressure relieving cushions, pressure relieving pads, pressure redistributing pads, protective apparatus against the hardening, ulceration or inflammation of areas of skin, cushions for care of the feet; orthopedic articles, namely, orthopedic insoles,

disposable orthopedic insoles; instruments and apparatus for placing bandages, namely, slings; apparatus for the fixing of fingers and toes, namely, splints; elastic bandages for joints; elastic bandages, namely, elastic gaiters; medical braces for knees, namely, elastic knee-joints; orthopedic support bandages; subatmospheric wound therapy device for use at home, which utilizes negative pressure to promote tissue granulation and decompression, flap and graft survival, and to remove infectious materials; surgical staple removers; surgical sponges; surgical staplers; wearable medical devices for protecting against the hardening, ulceration or inflammation of areas of skin; medical device control systems, namely, systems comprised of microprocessor-controlled pumps, wound dressings and connecting tubing for controlled delivery of therapeutic pressure to tissue; medical devices, namely, plastic closures for use in covering fluid connectors and ends on fluid transportation lines and ports; surgical masks; disposable surgical masks; reusable surgical masks; sanitary masks for medical purposes; protective masks for medical purposes; sanitary masks for medical wellness purposes; masks for use by medical personnel; protective face masks for medical use; face masks for use by health care providers; personal protective equipment (ppe), namely, masks for use by medical personnel; respirators for filtering air for medical purposes; sanitary masks; medical testing apparatus for analyzing sterilization indicators.

Cl.11. Water filtering apparatus; liquid filtration and purification units and parts and accessories therefor; filters for high purity filtration for use in commercial, industrial and bioprocessing industries; incubators for medical sterilization; membranes for use in filtration and purification in the medical industry; filter membranes used in microfiltration and ultrafiltration; membrane filters for water filtering apparatus; apparatus and instruments for use in the sterilization of liquids and gases used in the medical industry; fibrous filtering media for general industrial use in the purification of air and industrial fluids; filtering for cleaning and purifying air, gases, and liquids, namely, a membrane contactor comprised of microporous hollow fibers for conducting membrane separation and transferring dissolved gases to or from a fluid stream in the nature of liquid filters; water filtration and purification units and replacement cartridges and filters therefor; apparatus for the separation of liquids being water filtering apparatus; filter cartridge for the filtration of liquids; filtering devices, namely, filters, filter cartridges, filter media and filter housings for the removal of impurities from fluids and other filterable substances; fluid filtering cartridges for general domestic and industrial use; filtering devices, namely, filters, filter cartridges, filter media, filter housings, membranes, filter discs and parts thereof for fluid filtration for domestic and commercial use; water softening and conditioning units; reverse osmosis water purification units and flow restrictors for reverse osmosis water purification systems; fibrous filtering media for general domestic and industrial use in the purification of air and fluids; non-electrical water purification units; air filter material and air filters for industrial and domestic use in furnaces, air conditioners, room air cleaners, home and building HVAC air ventilation and cleaning equipment, air cleaning and purification units, and other domestic, industrial and commercial uses and installations; filtering devices, namely, filters, filter media, filter cartridges, and filter housings and parts thereof, all for use in the filtration of liquids and gases; water purifying units, for potable water for commercial or industrial use; filters and filter cartridges sold as components of liquid purification units for filtering coatings, liquids for machinery and engines, and liquids used in the electronics industries; filters for high purity water and liquid filtration for commercial and industrial use, namely membrane filters for filtering liquids; filters for industrial use in water filtration, water purification and liquid filtration namely, membrane filters for filtering liquids; filters, filter housings, filter media, filter cartridges, and associated hardware, employed in the filtration of goods by the electrokinetic capture and adsorption of contaminate particles from fluids; filtration capsule for use in the clarification, purification, and separation of liquids, namely, aqueous or semiaqueous compounds; mechanical liquid straining and filtering cartridges, and parts thereof; water filtration and purification units and replacement cartridges and filters therefor; water filtering units for domestic, commercial, and industrial use; water filters and components thereof, namely, filter cartridges for reduction of hard water, acid water, iron, lead, dirt, rust and sediment from drinking water supplies, from hot water systems, and from household appliances and humidifiers, for domestic and industrial use; water filtration systems comprised of a filter cartridge, tubing, connectors and brackets; water filters; water

filter cartridges; air purifiers; autoclaves for medical use.

Cl.35. Medical transcription services; medical coding services; medical scribing services; consulting services in the field of medical coding; online retail store services; consulting services in the field of patient medical records coding; consulting services related to medical coding, compliance and health information management, namely, on-site manual coding, customized training seminars and specialized coding/operational assessments; medical transcription and medical documentation business management solution services used by health care providers to improve documentation workflow and healthcare records management in the field of physician documentation, integrating dictation, transcription, speech or language recognition, medical coding, and delivery and retrieval of health related reports, allowing doctors to spend more time during physician-patient encounters, medical exams, and evaluations; medical coding services in the nature of assigning predetermined codes for medical diagnoses and procedures, and improving and auditing medical coding; outsource service provider in the field of medical coding; outsource service provider in the field of professional and technical coding for ambulatory medical and surgical providers for purposes of offering clinical documentation improvement services, improved productivity and efficiency, staffing coverage, guaranteed turnaround times and appropriate revenue capture; consulting services in the field of professional and technical coding for ambulatory medical and surgical providers; physical and on-line retail store services featuring toiletries, therapeutic devices, surgical, medical, orthopedic, orthotic, chiropodial, podiatric, foot care related, and veterinary apparatus and instruments, wound care preparations and instruments, dressings, medicated products and preparations, and preparations for the care of the skin, feet and body; analysis of business data, namely, reviewing medical documents and assigning medical, billing, insurance, and administrative codes thereto.

Cl.41. Medical, healthcare, dental and orthodontic education services; continuing education services, namely, providing online continuing professional education and training seminars and courses in the field of auscultation and cardiovascular diagnostics for medical personnel; educational services related to medical coding, compliance and health information management, namely, on-site manual coding, customized training seminars and specialized coding/operational assessments; educational services, namely, providing live and online classes, non-downloadable webinars, seminars, and workshops to medical and healthcare professionals and facilities regarding compliance with governmental guidelines and guidelines of professional organizations, disease infection control, workflow and process improvement, and management and improvement of clinical outcomes, and distribution of educational materials in connection therewith; educational services, namely, providing live and online classes, non-downloadable webinars, seminars, and workshops to medical and healthcare professionals and facilities regarding best practices in the use, care and maintenance of medical devices, namely, intravenous lines and medical devices for use in connection therewith, medical dressings for use at infusion catheter and intravenous sites, medical tapes and adhesives used for securing medical tubing and devices, medical tubing, and medical apparatus for warming and cooling a patient's body temperature, managing patient hypothermia, warming blood and iv fluids, and monitoring and recording a patient's body temperature, and distribution of educational materials in connection therewith; educational services, namely, providing live and online classes, non-downloadable webinars, seminars, and workshops to medical and healthcare professionals and facilities regarding reducing infection rates and intravenous line complications, protecting skin from damage, and managing wound sites, conditions that impact skin, the care and maintenance of skin, and blood stream infections, and distribution of educational materials in connection therewith; educational services, namely, providing live and online classes, non-downloadable webinars, seminars, and workshops to medical and healthcare professionals and facilities regarding monitoring, and improving best practices in, sterilization procedures used in the medical field, and distribution of educational materials in connection therewith; educational services, namely, providing live and online classes, seminars, workshops and learning tools to medical and healthcare professionals and facilities regarding compliance with governmental guidelines and best practices in the use, care and maintenance of intravenous lines, reducing infection rates and intravenous line complications, and protecting skin from damage, and regarding the proper usage of medical devices, namely,

intravenous lines, medical devices for use in connection therewith, and medical dressings for use at infusion catheter and intravenous sites; educational services, namely, training in the use of computer software for voice recognition and medical records.

Cl.42. Consulting services related to medical software; research and design for medical purposes; software as a service (SaaS) for speech recognition, medical transcription, coding and reimbursement; software as a service (SaaS) for creating and maintaining medical, patient and healthcare records; design of water treatment systems for others; consultation and testing services in the field of water treatment; computer software consultation; technical support services, namely, troubleshooting of computer software problems; computer software design; design of commercial water treatment systems for others; providing on-line non-downloadable software that enables users to monitor and improve compliance with governmental guidelines and best practices in the use and maintenance of intravenous lines, medical devices for use in connection therewith, and medical dressings for use at infusion catheter and intravenous sites; providing on-line non-downloadable software that enables users to monitor and improve disease infection control, workflows, clinical outcomes and compliance with governmental guidelines and guidelines of professional organization; providing on-line non-downloadable software that enables users to monitor and improve best practices in the use, care and maintenance of medical devices, namely, intravenous lines, medical devices for use in connection therewith, medical dressings for use at infusion catheter and intravenous sites, medical tapes and adhesives used for securing medical tubing and devices, medical tubing, and medical apparatus for warming and cooling a patient's body temperature, managing patient hypothermia, warming blood and iv fluids, and monitoring and recording a patient's body temperature; providing on-line non-downloadable software that enables users to monitor and reduce infection rates and intravenous line complications, protect skin from damage, and manage wound sites, conditions that impact skin, the care and maintenance of skin, and blood stream infections; providing on-line non-downloadable software that enables users to monitor, and improve best practices in, sterilization procedures used in the medical field; providing consulting services in the field of hospital inpatient classification for payment reimbursement purposes and providing patient profiles for hospitals; providing on-line, non-downloadable software for use in extracting patient clinic notes and medical records and translating language for assigning diagnostic and treatment codes, and for comparing accuracy with other coding inputs, for use primarily in medical reimbursement; providing online, non-downloadable, Internet-based software using speech recognition for use by medical healthcare professionals for the documentation of patient medical information and electronic health records; providing online, non-downloadable, Internet-based software for use by medical and healthcare professionals for charge capture, order entry and dictation of e-prescription; providing remote diagnosis and monitoring of dictation and transcription systems to identify malfunctions and defects and ensure proper functioning; providing temporary use of non-downloadable cloud-based software for artificial intelligence virtual assistance for use in the healthcare field in the clinical documentation of patient medical information in health information systems and in the management of clinical documentation improvement (CDI) processes; providing temporary use of non-downloadable software for use in extracting medical records and translating language for assigning codes primarily for medical reimbursement; providing temporary use of online non-downloadable software featuring a database of recorded heart sounds for use as a teaching aid in training auscultation and cardiovascular diagnostics; providing temporary use of online non-downloadable software featuring a database of recorded heart sounds for use by medical personnel in improving the ability to recognize benign and pathological heart sounds and murmurs; providing temporary use of online non-downloadable software featuring continuing professional education and training seminars and courses for use by medical personnel in the field of auscultation and cardiovascular diagnostics; providing temporary use of non-downloadable software that identifies patterns of language in medical documents in order to organize, manipulate, and codify such documents; software as a service (SaaS), namely, services featuring software for providing medical, health, and wellness information accessible through mobile applications; software as a service (SaaS), namely, services featuring software for providing medical, health, and wellness information accessible through remote connectivity module equipped devices; software as a service

(SaaS), namely, software to assist in ordering or purchasing products.

Cl.44. Therapeutic wound care services; monitoring and remote monitoring of individuals or groups for medical treatment; medical, orthodontic and dental consultation services; medical consulting services in the fields of disease infection control, intravenous line care and maintenance, and skin protection; consulting services provided to medical and healthcare professionals and healthcare facilities regarding compliance with governmental guidelines and best practices in the use, care and maintenance of intravenous lines, reducing infection rates and intravenous line complications, and protecting skin from damage, and regarding the proper usage of medical devices, namely, intravenous lines, medical devices for use in connection therewith, and medical dressings for use at infusion catheter and intravenous sites; medical consulting services provided to medical and healthcare professionals and healthcare facilities regarding compliance with governmental guidelines and guidelines of professional organizations, disease infection control, workflow and process improvement, and management and improvement of clinical outcomes; medical consulting services provided to medical and healthcare professionals and healthcare facilities regarding best practices in the use, care and maintenance of medical devices, namely, intravenous lines, medical devices for use in connection therewith, medical dressings for use at infusion catheter and intravenous sites, medical tapes and adhesives used for securing medical tubing and devices, medical tubing and medical apparatus for warming and cooling a patient's body temperature, managing patient hypothermia, warming blood and iv fluids, and monitoring and recording a patient's body temperature; medical consulting services provided to medical and healthcare professionals and healthcare facilities regarding reducing infection rates and intravenous line complications, protecting skin from damage, and managing wound sites, conditions that impact skin, the care and maintenance of skin, and blood stream infections; medical consulting services provided to medical and healthcare professionals and healthcare facilities regarding monitoring, and improving best practices in, sterilization procedures used in the medical field; medical services, namely, providing information related to advanced wound care, negative pressure wound therapy, and therapeutic support systems; monitoring, tracking, and reporting medical conditions, medical data, and medical records, namely, medical diagnostic testing, monitoring and reporting services in the nature of remote monitoring of data indicative of the health or condition of an individual or group of individuals for medical diagnosis and treatment purposes; medical diagnostic monitoring and reporting services, namely, monitoring and reporting the medical condition of individuals; therapeutic healthcare services, particularly the automated alternating application of negative pressure wound therapy and controlled delivery of topical solutions to a wound site; tissue therapy and tissue therapy control services, namely, the provision of reduced pressure tissue treatment using therapeutic devices with wound site feedback control systems for optimizing control of the therapy.

Cl.01. Chemicals for use with exploring, drilling and transporting oil and gas; industrial chemicals for use with exploring, drilling, and transporting oil and gas; chemicals for use in the construction, treating, servicing, completion and working of oil, gas, geothermal and water wells; chemicals for use in the oil refining and petrochemicals industry; chemicals used in oil and gas production; chemical preparations for use in industry; chemical preparations for the dispersal of oil; chemicals for use in oil drilling; chemicals for use in oil well construction; chemical additives for oil well drilling fluids; additives for drilling fluids being chemicals and chemical lost circulation materials

for use in oil and gas drilling; chemical anti-static preparations for industrial purposes; chemicals for use in the production of chlorine dioxide; chemicals used in oil and gas well stimulation, production enhancement, and secondary and tertiary hydrocarbon recovery; chemicals used in oil and gas well fracturing; chemicals for use in enhancing oil recovery from wells; chemical additives; chemical additives for oils, crude oil, fuel, lubricants, gasoline, drilling lubricants, gas and natural gas liquids; surfactants for industrial purposes; chelating agents; cementing chemicals; chemicals for oil pipeline and midstream oil production; detergent additives to gasoline [petrol]; oil dispersants; oil-purifying chemicals; emulsifiers; enzymes for industrial purposes; filtering materials [chemical preparations]; filtering materials [mineral substances]; deflocculating agents for oil and crude oil; anti-freezing liquids and preparations; hydraulic fluids; transmission fluids; purifying additives for fuel, adhesives used in industry; chemical drilling muds for oil and gas wellhead; reservoir chemicals and fluids, namely, chemicals for use in oil drilling and oil well construction.

Cl.40. Oil and gas well treatment; refining services; refining of petroleum products; oil refinery services; petrochemical refining services; processing of chemical and petrochemical substances; processing of natural gas; filtration and purification of natural gas; processing of oil and natural gas; treatment of materials using chemicals; treatment of oil spills; technical consulting in the field of oil and gas wells treatment; technical consulting in the field of gas production and processing; technical consulting in the field of oil refining and processing; provision of information relating to oil spills treatment; information regarding treatment of materials; filtration services for the petroleum industry; chemical processing of industrial catalysts to remove metal particles prior to reuse; processing of used exhaust catalysts for recovery of noble metals; regeneration of spent catalysts; rental of generators; rental of chemical processing machines and apparatus and provision of information relating thereto; rental of power-generating equipment.

Cl.42. Surveying [engineering]; material testing; engineering consultancy; oil prospecting; oil well testing; oil field surveying; chemistry services; analysis for oil field exploration; inspection and analysis of oil fields; engineering services for the analysis and research in the scientific and technological fields; services of engineers assuming responsibility for analysis, scientific, technological, chemical research; industrial research relating to the oil and gas industry; technical research relating to the oil and gas industry; scientific and technological services as well as industrial analysis and research services; research, development, and technological consulting services for the oil and gas industry; environmental protection consultancy, research and development of new products for others; chemical research and analysis; chemical analysis; evaluation of chemical analyses; scientific chemical analysis of digital oil and gas field data; product development consultation for inventors in the field of chemical engineering; preparation of reports relating to chemical research; computer programming services for commercial analysis and reporting; calibration [measuring]; diagnostic services for the oil and gas industry, namely, identifying issues with equipment, machinery, apparatus, and chemicals used in the recovery, production, processing, and refining of oil and gas; quality control auditing services for the oil and gas industry; chemical laboratory services; scientific laboratory services; technical measuring and laboratory testing services; consultancy relating to laboratory testing; leasing and rental of laboratory instruments and apparatus.

Cl.03. Non-medicated cosmetics and toiletry preparations; toothpaste; non-medicated skin care preparations, namely, cleansers, creams, lotions, moisturizers, barrier creams and emollients; hand cleaning preparations; non-medicated hand soaps; non-medicated skin care preparations.

Cl.05. Sanitary preparations for medical purposes; antiseptics; disinfectants; antifungal preparations; hand sanitizing preparations; plasters; materials for dressings; bandages; surgical, medical and wound dressings; medical tapes; surgical tapes; adhesive pads for medical use; dental and orthodontic preparations and materials; material for stopping teeth; dental wax; dental impression materials; dental cements; biological/nonbiological indicators; chemical and steam indicator strips and tape for use with autoclaves and for testing the sterility of medical instruments and equipment; indicator strips for testing glutaraldehyde, ethylene oxide and other chemical solutions and gases; indicator strips for indicating temperatures for use in sterilization and safety-monitoring; steam sterilization indicator strips and tape containing thermally responsive compounds for medical or veterinary purposes; sterilization monitor testing kits containing indicator strips or tape, reagents and record keeping cards or binders for testing the sterility of surgical and medical instruments, equipment, and supplies; cartridges sold pre-filled with gases and gas mixtures for sterilization in the medical field; adhesive pads for use with wound dressings to seal and protect wounds from moisture; hydrocolloid pads for use with wound dressings to seal and protect wounds from moisture; biodegradable adhesive pads for use with wound dressings to seal and protect wounds from moisture; moisture absorbing, adhesive polymer pads for use with wound dressings that promote wound healing; moisture absorbing, adhesive polymer pads for use with wound dressings to seal and protect wounds from moisture; conformable adhesive pads for use with wound dressings to seal and protect wounds from moisture; burn dressings; corn pads; corn rings for the feet; corn plasters; chilblain preparations; dressings for the treatment of diabetic ulcers, pressure ulcers, surgical wounds, vascular and circulatory system-related skin diseases; medicated preparations and substances for the treatment of scars and scar-related skin conditions; medicated insoles for the treatment of skin conditions of the foot; antimicrobial metal coatings and powders containing silver oxysalts to treat the growth of bacteria for use in and on medical and surgical wound and burn dressings; antimicrobial preservatives containing silver oxysalts for the treatment of skin and wounds; antiseptic liquid bandages; liquid bandages for skin wounds; medical topical preparations, namely, liquids that form a barrier film to protect skin and treat damaged skin; bandages for dressings; bandages for skin wounds; adhesive bandages; surgical bandages; biological and non-biological indicators for monitoring sterilization processes for medical or veterinary purposes; disinfectant and film forming solution for use on incise area of a surgical patient; dressings for the

treatment of wounds, namely, foam-based dressings, colloid and collagen-based dressings, and chemically treated dressings; foam dressings for wound healing applications; foam pads for use as materials for medical wound dressing; gauze for dressings; materials for dressings, namely, gauze, hydrogel pads, hydrocolloid pads; antimicrobial hand-sanitizing preparations; hydrogel for medical purposes; medical adhesive strips for closing wounds or incisions; medical and surgical hemostatic preparations for halting blood flow; medical wound dressings for use in cleansing wounds, exfoliating skin and wounds and removing debris from skin and wounds; dressings for the management of exudate from wounds; medicated skin care preparations; medicated compresses; medical cleansers for skin and wounds; sanitizing wipes and pads; antiseptic preparations; medicated pads impregnated with anti-infective preparations; hydrocolloid dressings; plasters for medical purposes; medical plasters; adhesive plasters for medical purposes; self-adhering foam for use in cushioning orthopedic casts and splints; swabs for medical purposes; medicated swabs; therapeutic medicated bath preparations; medicated bath preparations; bath salts and bath preparations for medical purposes; transparent film dressings; wound care products containing silver, namely, antimicrobial medical and surgical wound and burn dressings; impregnated bandages, surgical bandages, and dressings for skin wounds; wound dressings for negative pressure tissue treatment; anti-microbial wound dressing; bandages impregnated with anti-infective preparations; eye patches for medical purposes; anti-cavity dental coating preparations containing fluoride; bonding and primer materials for dental purposes; material for repairing teeth and for dental crowns and bridges; dental ceramics; material for dental bridges; dental adhesives; adhesives for dentistry and dental technical purposes; dental bite registration materials; duplicating material for dental and dental technical uses, embedding material for dental and dental technical uses; dental sealants; dental composite materials; teeth filling material; dental restoration compounds; etching materials for dental use; fissure sealant for dental and dental technical purposes; material for lining and filling tooth cavities; material for tooth crowns and tooth bridges for dental and dental technical purposes; materials for artificial teeth; plastics for use as modeling material for dental purposes; materials for dental fillings and for sealing purposes; medicated candy, namely, a xylitol sweetened mint; medicated dental rinses; medicated anti-cavity mouth rinses; medicated anti-cavity dental rinses; medicated mouthwash; medicated dentifrices; medicated toothpaste; plastics in the form of paste or powder for the manufacture of tooth crowns, tooth bridges, artificial teeth and plastic prostheses; plastics as modelling material for dental uses, tooth fillers, tooth lacquers; sand-blasting agents for adhesive restoration and for pretreatment for adhesive attachments for dental and dental technical uses; bonding and primer materials for dental purposes; dental veneers; dental veneers for use in dental restoration; dental resin for temporary bridges, crowns and veneers; orthodontic bonding paste; adhesives for use with orthodontic appliances.

Cl.09. Speech recognition software; software for medical transcription, coding and reimbursement; software for creating and maintaining medical, patient and healthcare records; computer hardware for voice transcription; electronic apparatus for testing the sterility of medical equipment; computer hardware and downloadable computer software for use in the healthcare field in connection with reporting, scanning and medical coding of patient medical information; computer hardware and downloadable computer software for use for reporting and clinical documentation of patient medical information; computer hardware and downloadable computer software for creation of clinical documentation of patient medical information in health information systems; downloadable computer software for natural language, speech, speaker, voice and/or voice-print recognition, identification, verification and/or processing for use in the field of medical records and health information management; computer hardware and downloadable software for managing patient medical information; computer software for retrieval, display, and browsing of medical information; computer hardware in the nature of stand-alone voice controlled devices for medical and data transcription; downloadable audio to text transcription computer software used for controlling stand-alone voice controlled devices; wireless communication devices for voice and data transmission; computer hardware and downloadable software used for the control of voice controlled information and communication devices; downloadable voice recognition software; downloadable computer software for medical records management, namely, software for recording and reporting patient

medical data for billing, third party payer and regulatory agencies, and for assessing, tracking, and reporting infections; downloadable computer software for natural language, speech, speaker, voice and/or voice-print recognition, identification, verification and/or processing for use in the fields of transcription, healthcare documentation, healthcare records management; computer software and computer software development tools for speech and language recognition; computer software for natural language, speech, speaker, voice and/or voice-print recognition, identification, verification and/or processing for use in the fields of medical records, medical coding, compliance and health information management; downloadable computer software for use in calculating, analyzing, grouping and processing patient information for healthcare billing and government reimbursement; downloadable computer software for use in dentistry to utilize images of teeth and the mouth, and for designing and milling dental restorations, namely, crowns, bridges, inlays, onlays and veneers; downloadable computer software for use in the reporting of and the clinical documentation of patient medical information on portable devices; downloadable computer software for use with stethoscopes and in the field of cardiac and pulmonary auscultation for the display of sounds primarily related to the heart and lung; downloadable computer software for use with stethoscopes for use in the field of medicine for auscultation and the transmission primarily of heart and lung sounds; downloadable computer software, namely, a desktop transcription platform featuring voice capture, integrated speech recognition, interpretation and formatting, editing tools for transcriptionists, and document management and distribution; computer hardware and downloadable software for the delivery of enterprise and internet-based software applications for use in connection with healthcare transcription, dictation, electronic signature and speech recognition solutions; downloadable computer software, namely, integrated software applications designed to organize and integrate medical record information; downloadable software for the delivery of enterprise applications targeting the creation and connection of mission critical healthcare information including transcription, dictation, electronic signature and speech recognition solutions; computer transcription hardware and downloadable computer transcription software for use in the medical field to allow physicians the ability to dictate, self-edit and electronically sign medical reports and documents or send to transcription service for return to electronic inbox upon completion for signature; dictation microphones incorporating a light pen; downloadable computer software and mobile applications using artificial intelligence and speech recognition to assist in the entering of data in health information systems; downloadable mobile application software featuring a database of recorded heart and lung sounds for use as a teaching aid in training auscultation and cardiovascular and pulmonary diagnostics; downloadable mobile application software featuring a database of recorded heart and lung sounds for use by medical personnel in improving the ability to recognize benign and pathological heart sounds and murmurs; downloadable mobile application software for providing continuing professional education and training for medical personnel in the field of auscultation and cardiovascular and pulmonary diagnostics; downloadable mobile applications using speech recognition for use by medical and healthcare professionals for the documentation of patient medical information and electronic health records; downloadable mobile applications for use by medical and healthcare professionals for charge capture, order entry and dictation of e-prescriptions; downloadable software application that enables users to monitor and improve compliance with governmental guidelines and best practices in the use and maintenance of intravenous lines, medical devices for use in connection therewith, and medical dressings for use at infusion catheter and intravenous sites; downloadable software application that enables users to monitor and improve disease infection control, workflows, clinical outcomes and compliance with governmental guidelines and guidelines of professional organizations; downloadable software application that enables users to monitor and improve best practices in the use, care and maintenance of medical devices, namely, intravenous lines and medical devices for use in connection therewith, medical dressings for use at infusion catheter and intravenous sites, medical tapes and adhesives used for securing medical tubing and devices, medical tubing, and medical apparatus for warming and cooling a patient's body temperature, managing patient hypothermia, warming blood and iv fluids, and monitoring and recording a patient's body temperature; downloadable software application that enables users to monitor and reduce infection rates and intravenous line complications, protect skin from damage, and manage wound sites, conditions that impact skin, the care and maintenance of

skin, and blood stream infections; downloadable software application that enables users to monitor, and improve best practices in, sterilization procedures used in the medical field; downloadable software in the nature of a mobile application for providing information to healthcare professionals to assist in the provision of wound care services to patients and to assist in ordering or purchasing products; scanners and related downloadable software for capturing images of the mouth and teeth for use in dentistry; laboratory equipment and supplies, namely, laboratory analysis kit comprising wands for collecting bacteria and pre-measured chemical solutions for preparing standardized inoculums for antimicrobial susceptibility testing in a clinical laboratory, sold as a unit; laboratory equipment, namely solid phase extraction disks, extraction disk cartridges and high density glass beads for use as filter aids; laboratory equipment, namely, membrane filters for liquid; laboratory equipment, namely, membranes, capillary membranes, flat membranes, and porous tubular membranes, and modules containing said membranes for the equipment, namely, liquid concentrators, purifiers, and filters; laboratory filters; filters for use in laboratory equipment; laboratory filters in the nature of membrane filters made of synthetic or regenerated polymers in the shapes of flat films, hollow fibers, tubes and pipes; laboratory filters in the nature of membrane filters in the shapes of hollow fibers, tubes and pipes connected with textile threads; scientific equipment, namely, laboratory filters for osmosis and reverse osmosis, sterilization processes, ultrafiltration, and microfiltration; laboratory equipment, namely, microporous hollow fibers for conducting membrane separations and apparatus containing the same; laboratory equipment and supplies, namely, microporous hollow fibers used in contactors, degassers, filters, concentrators, purifiers, diffusers, and medical laboratory equipment; membranes made of synthetic or regenerated polymers in the form of hollow fibers, tubing, piping and film for laboratory separation processes, and modules equipped with the aforesaid membranes for scientific laboratory purposes, namely, filtration modules, modules for osmosis and reverse osmosis, sterilizers, ultrafiltration modules, debubblers, degassers, mass transfer devices; laboratory equipment, namely, membranes, capillary membranes, flat membranes, and porous tubular membranes; laboratory filter membranes used in microfiltration and ultrafiltration; technical apparatus, namely, filtering membranes for technical or medical separations and transfers; filters for blood and blood components for laboratory use; ophthalmic lenses and ophthalmic prisms.

Cl.10. Orthopedic articles; orthopedic inserts for footwear; hosiery for medical, surgical, and orthopedic purposes; stethoscopes; orthopedic and compression bandages and wraps; medical and surgical drapes, sheets and gowns; medical connectors and closures and component parts thereof for use in connection with intravenous (iv) lines and medical fluid management, delivery, extraction and removal; patient warming systems; medical devices for closing wounds; wound drainage apparatus; wound suction apparatus; negative pressure wound therapy systems (term considered too vague by the International Bureau pursuant to Rule 13 (2) (b) of the Regulations); orthodontic brackets and appliances; dental crowns; membranes used in medical devices including blood treatment and dialysis; cases fitted for medical instruments; capillaries made of polymers and arranged in the form of mats for heat exchangers applied in medicine; implant abutments for dental purposes; plastic material for producing, relining and repair of dental prostheses; dental curing lights; dental apparatus, namely, intra-oral light systems; dental devices and apparatus, namely, mixers and dispensers for dental impression material; dental instruments, namely, mandrels, burs, discs, cups, wheels, points, brushes, and abrasive strips, used to grind, polish or finish dental restorations; dental instruments, namely, custom dental matrices for use with dental restoratives and dental composite materials; dental instruments, namely, dental prophylaxis angles and dental prophylaxis cups, for use in cleaning teeth and dental hygiene procedures; dental instruments, namely, disposable prophylaxis angles; dental syringes; dental apparatus, namely, dispensing guns specially adapted for dental purposes for use in dispensing dental restorative material; finishing and polishing discs for dental use; dental instruments, namely, scissors, crimping pliers, contouring pliers and impression trays; applicators and dispensers for dental primers, cements, adhesives, impression materials and restorative materials; glass-fiber posts used in dental restorative procedures; dental prophylaxis angles and dental prophylaxis cups for use in cleaning teeth and dental hygiene procedures; dental instruments, namely, preparation dental instruments for mixing, dispensation and application of

dental impression materials, bite checking materials; dental filling and bonding material contained in disposable applicators; cutting and grinding discs for dental applications; orthodontic appliances, namely, pliers, braces, lugs, wires, pins and brackets; orthodontic buccal tubes; orthodontic rubber bands; wound suction apparatus, wound drainage apparatus, and parts and fittings therefor; disposable negative pressure wound therapy device in the nature of a subatmospheric pressure source and related tubing, all for use with wound interface drainage receptacles, and all for promoting wound healing; eartips for stethoscopes; stethoscopes and parts and fittings therefor; electronic noise reducer sold as an integral component of stethoscopes for enhancing auditory capabilities for auscultation; medical instrument consisting of a wireless electronic transceiver for use in conjunction with electronic stethoscopes for the recording and display of heart sounds and other physiological acoustic signals; elastic bandages; casting tape for orthopedic purposes; orthopedic splints; reinforcing strips, composite fabrics containing fiberglass and resins for use in making casts; support bandages; therapeutic compression wraps; padding for orthopedic casts; orthopedic casting tools; surgical sterile sheets; medical isolation gowns; protective barriers in the nature of medical drapes; medical electrodes; cardiac electrodes; electrodes for external defibrillators; medical electrodes with or without chemical conductors and wet gels for use in cardiac, electrocardiograph, electroencephalograph and other types of patient monitoring; medical leads and connectors for use with medical electrodes; defibrillation pads; electrosurgical pads, plates and adapters to remove rf current from a patient's body during electrosurgery; padding for use between medical equipment and patients or for elevating or positioning limbs; pouches for holding surgical and medical instruments; surgical compresses; surgical wraps; medical table sheets for examining tables and operating tables; thermometers for medical use; therapeutic hot and cold therapy packs; surgical skin staplers; drainage tubes for medical purposes; receptacles for collecting wound drainage; medical and surgical apparatus for tissue transplantation; electronic temperature monitors for medical use; blankets for medical purposes; medical apparatus for human and veterinary use for warming and cooling a patient's body temperature, comprising an air convective device, a hose, a gown or blanket, sensors, controls, and parts and fittings therefor; medical apparatus for intravenous administration of fluids, namely, fluid warmers; medical apparel in the nature of lab coats for use in medical examination and treatment; medical device control system, namely, a system comprised of microprocessor controlled pumps, wound dressings and connecting tubing for providing alternating negative pressure to promote tissue granulation and decompression, flap and graft survival, and to remove infectious materials; electronic medical appliances for wound healing; medical device control systems comprised of medical therapeutic pumps and medical connection tubing for controlled delivery of therapeutic pressure to wound healing devices; medical fluid injectors; medical devices for managing fluids; medical devices for fluid delivery, extraction and removal; medical instruments, namely, hemostats that clamp blood vessels to diminish or halt blood flow; vacuum pumps for medical purposes; medical devices, namely pump units for promoting wound healing, receptacles for collecting wound drainage, and parts and accessories for the foregoing; medical devices, namely, medical connectors and component parts thereof for use with products for transferring fluids; plastic closures for use in covering fluid connectors and ends on fluid transportation lines and ports; medical devices, namely, tamper-evident devices for use in connection with intravenous (iv) lines; wound therapy system comprised of wound treatment apparatus, wound dressings, valves, tubes and straps with holsters; accessory for wound treatment apparatus, namely, strap and holster used to secure apparatus to patient; medical equipment, namely, membranes made of polymers in the form of hollow fibers for separation processes for use in medical apparatus for blood treatment, dialysis, hemodiafiltration, hemofiltration, endotoxin filtration; medical equipment, namely, membranes, capillary membranes and flat membranes, and modules containing said membranes for medical equipment, namely, hemoconcentration apparatus, hemodialysis apparatus, hemodiafiltration apparatus, plasmapheresis apparatus, oxygenators, and plasma fractionation; hypodermic needles; filters for medical purposes, namely, blood filters; hemodialysis apparatus; membranes for blood filtration, hemodialysis, hemofiltration, hemodiafiltration, and oxygenation; membranes for use in medical apparatus made of synthetic or regenerated polymers in the form of capillaries, tubing, piping, and film for hemodialysis, hemofiltration, hemodiafiltration, endotoxin filtration, plasmapheresis, hemoconcentration; membranes for use in medical apparatus made of synthetic or

regenerated polymers in form of films, hollow fibers, tubings and pipings for separation processes, as well as bundles or fabrics of the aforesaid hollow fibers, tubings and pipings in combination with textile threads all for use in hemodialysis, hemofiltration, hemodiafiltration, endotoxin filtration, plasmapheresis, hemoconcentration; capillaries of hollow fibers or tubes made of polymers and arranged in the form of mats for heat exchangers applied in medicine; membranes made of polymers in the form of hollow fibers for separation processes for use in medical apparatus for blood treatment, namely, dialysis filters, hemodiafilters, hemofilters, endotoxin filters, plasmapheresis filters, blood oxygenators, microfiltration, ultrafiltration, air filtration for medical ventilators; membranes made of synthetic or regenerated polymers in the form of hollow fibers, tubing, piping and film for separation processes, and modules equipped with the aforesaid membranes for use in medical apparatus, namely, dialysis and plasmapheresis filters in the nature of hemodialysers, hemofiltration, hemofiltration modules, hemodiafiltration, hemodiafiltration modules, endotoxin filtration modules, plasmapheresis modules, and hemoconcentration modules; membranes in the nature of hollow fibers for medical therapeutic purposes; membranes in the nature of hollow fibers for medical therapeutic purposes, sold empty, for use in for blood filtration, hemodialysis, hemofiltration, hemodiafiltration, and oxygenation; negative pressure wound therapy device in the nature of a subatmospheric pressure source and related tubing, all for use with wound interface drainage receptacles, and all for promoting wound healing; orthopedic apparatus and instruments for diagnostic and therapeutic use; orthopedic, orthotic, chiropody, foot care and veterinary apparatus and instruments, namely, orthopedic cushions and padding, orthopedic padding for the treatment and prevention of oedema or scarring, orthopedic padding for use in combination with casts or with prosthetics, medical and surgical gloves; orthopedic cushions and padding, namely, pressure relieving cushions, pressure relieving pads, pressure redistributing pads, protective apparatus against the hardening, ulceration or inflammation of areas of skin, cushions for care of the feet; orthopedic articles, namely, orthopedic insoles, disposable orthopedic insoles; instruments and apparatus for placing bandages, namely, slings; apparatus for the fixing of fingers and toes, namely, splints; elastic bandages for joints; elastic bandages, namely, elastic gaiters; medical braces for knees, namely, elastic knee-joints; orthopedic support bandages; subatmospheric wound therapy device for use at home, which utilizes negative pressure to promote tissue granulation and decompression, flap and graft survival, and to remove infectious materials; surgical staple removers; surgical sponges; surgical staplers; wearable medical devices for protecting against the hardening, ulceration or inflammation of areas of skin; medical device control systems, namely, systems comprised of microprocessor-controlled pumps, wound dressings and connecting tubing for controlled delivery of therapeutic pressure to tissue; medical devices, namely, plastic closures for use in covering fluid connectors and ends on fluid transportation lines and ports; surgical masks; disposable surgical masks; reusable surgical masks; sanitary masks for medical purposes; protective masks for medical purposes; sanitary masks for medical wellness purposes; masks for use by medical personnel; protective face masks for medical use; face masks for use by health care providers; personal protective equipment (ppe), namely, masks for use by medical personnel; respirators for filtering air for medical purposes; sanitary masks; medical testing apparatus for analyzing sterilization indicators.

Cl.11. Water filtering apparatus; liquid filtration and purification units and parts and accessories therefor; filters for high purity filtration for use in commercial, industrial and bioprocessing industries; autoclaves for medical use; membranes for use in filtration and purification in the medical industry; filter membranes used in microfiltration and ultrafiltration; membrane filters for water filtering apparatus; apparatus and instruments for use in the sterilization of liquids and gases used in the medical industry; fibrous filtering media for general industrial use in the purification of air and industrial fluids; filtering for cleaning and purifying air, gases, and liquids, namely, a membrane contactor comprised of microporous hollow fibers for conducting membrane separation and transferring dissolved gases to or from a fluid stream in the nature of liquid filters; water filtration and purification units and replacement cartridges and filters therefor; apparatus for the separation of liquids being water filtering apparatus; filter cartridge for the filtration of liquids; filtering devices, namely, filters, filter cartridges, filter media and filter housings for the removal of impurities from fluids and other filterable substances; fluid filtering cartridges for general domestic and industrial

use; filtering devices, namely, filters, filter cartridges, filter media, filter housings, membranes, filter discs and parts thereof for fluid filtration for domestic and commercial use; water softening and conditioning units; reverse osmosis water purification units and flow restrictors for reverse osmosis water purification systems; fibrous filtering media for general domestic and industrial use in the purification of air and fluids; non-electrical water purification units; air filter material and air filters for industrial and domestic use in furnaces, air conditioners, room air cleaners, home and building hvac air ventilation and cleaning equipment, air cleaning and purification units, and other domestic, industrial and commercial uses and installations; filtering devices, namely, filters, filter media, filter cartridges, and filter housings and parts thereof, all for use in the filtration of liquids and gases; water purifying units, for potable water for commercial or industrial use; filters and filter cartridges sold as components of liquid purification units for filtering coatings, liquids for machinery and engines, and liquids used in the electronics industries; filters for high purity water and liquid filtration for commercial and industrial use, namely membrane filters for filtering liquids; filters for industrial use in water filtration, water purification and liquid filtration namely, membrane filters for filtering liquids; filters, filter housings, filter media, filter cartridges, and associated hardware, employed in the filtration of goods by the electrokinetic capture and adsorption of contaminate particles from fluids; filtration capsule for use in the clarification, purification, and separation of liquids, namely, aqueous or semiaqueous compounds; mechanical liquid straining and filtering cartridges, and parts thereof; water filtration and purification units and replacement cartridges and filters therefor; water filtering units for domestic, commercial, and industrial use; water filters and components thereof, namely, filter cartridges for reduction of hard water, acid water, iron, lead, dirt, rust and sediment from drinking water supplies, from hot water systems, and from household appliances and humidifiers, for domestic and industrial use; water filtration systems comprised of a filter cartridge, tubing, connectors and brackets; water filters; water filter cartridges; air purifiers; sterilization units for medical purposes.

Cl.35. Medical transcription services; medical coding services; medical scribing services; consulting services in the field of medical coding; online retail store services; consulting services in the field of patient medical records coding; consulting services related to medical coding, compliance and health information management, namely, on-site manual coding, customized training seminars and specialized coding/operational assessments; medical transcription and medical documentation business management solution services used by health care providers to improve documentation workflow and healthcare records management in the field of physician documentation, integrating dictation, transcription, speech or language recognition, medical coding, and delivery and retrieval of health related reports, allowing doctors to spend more time during physician-patient encounters, medical exams, and evaluations; medical coding services in the nature of assigning predetermined codes for medical diagnoses and procedures, and improving and auditing medical coding; outsource service provider in the field of medical coding; outsource service provider in the field of professional and technical coding for ambulatory medical and surgical providers for purposes of offering clinical documentation improvement services, improved productivity and efficiency, staffing coverage, guaranteed turnaround times and appropriate revenue capture; consulting services in the field of professional and technical coding for ambulatory medical and surgical providers; physical and on-line retail store services featuring toiletries, therapeutic devices, surgical, medical, orthopedic, orthotic, chiropodial, podiatric, foot care related, and veterinary apparatus and instruments, wound care preparations and instruments, dressings, medicated products and preparations, and preparations for the care of the skin, feet and body.

Cl.41. Medical, healthcare, dental and orthodontic education services; continuing education services, namely, providing online continuing professional education and training seminars and courses in the field of auscultation and cardiovascular diagnostics for medical personnel; educational services related to medical coding, compliance and health information management, namely, on-site manual coding, customized training seminars and specialized coding/operational assessments; educational services, namely, providing live and online classes, non-downloadable webinars, seminars, and workshops to medical and healthcare professionals and facilities regarding compliance with

governmental guidelines and guidelines of professional organizations, disease infection control, workflow and process improvement, and management and improvement of clinical outcomes, and distribution of educational materials in connection therewith; educational services, namely, providing live and online classes, non-downloadable webinars, seminars, and workshops to medical and healthcare professionals and facilities regarding best practices in the use, care and maintenance of medical devices, namely, intravenous lines and medical devices for use in connection therewith, medical dressings for use at infusion catheter and intravenous sites, medical tapes and adhesives used for securing medical tubing and devices, medical tubing, and medical apparatus for warming and cooling a patient's body temperature, managing patient hypothermia, warming blood and iv fluids, and monitoring and recording a patient's body temperature, and distribution of educational materials in connection therewith; educational services, namely, providing live and online classes, non-downloadable webinars, seminars, and workshops to medical and healthcare professionals and facilities regarding reducing infection rates and intravenous line complications, protecting skin from damage, and managing wound sites, conditions that impact skin, the care and maintenance of skin, and blood stream infections, and distribution of educational materials in connection therewith; educational services, namely, providing live and online classes, non-downloadable webinars, seminars, and workshops to medical and healthcare professionals and facilities regarding monitoring, and improving best practices in, sterilization procedures used in the medical field, and distribution of educational materials in connection therewith; educational services, namely, providing live and online classes, seminars, workshops and learning tools to medical and healthcare professionals and facilities regarding compliance with governmental guidelines and best practices in the use, care and maintenance of intravenous lines, reducing infection rates and intravenous line complications, and protecting skin from damage, and regarding the proper usage of medical devices, namely, intravenous lines, medical devices for use in connection therewith, and medical dressings for use at infusion catheter and intravenous sites; educational services, namely, training in the use of computer software for voice recognition and medical records.

Cl.42. Consulting services related to medical software; research and design for medical purposes; software as a service (SaaS) for speech recognition, medical transcription, coding and reimbursement; software as a service (SaaS) for creating and maintaining medical, patient and healthcare records; design of water treatment systems for others; consultation and testing services in the field of water treatment; computer software consultation; technical support services, namely, troubleshooting of computer software problems; computer software design; design of commercial water treatment systems for others; providing on-line non-downloadable software that enables users to monitor and improve compliance with governmental guidelines and best practices in the use and maintenance of intravenous lines, medical devices for use in connection therewith, and medical dressings for use at infusion catheter and intravenous sites via a website; providing on-line non-downloadable software that enables users to monitor and improve disease infection control, workflows, clinical outcomes and compliance with governmental guidelines and guidelines of professional organization via a website; providing on-line non-downloadable software that enables users to monitor and improve best practices in the use, care and maintenance of medical devices, namely, intravenous lines, medical devices for use in connection therewith, medical dressings for use at infusion catheter and intravenous sites, medical tapes and adhesives used for securing medical tubing and devices, medical tubing, and medical apparatus for warming and cooling a patient's body temperature, managing patient hypothermia, warming blood and iv fluids, and monitoring and recording a patient's body temperature; providing on-line non-downloadable software that enables users to monitor and reduce infection rates and intravenous line complications, protect skin from damage, and manage wound sites, conditions that impact skin, the care and maintenance of skin, and blood stream infections via a website; providing on-line non-downloadable software that enables users to monitor, and improve best practices in, sterilization procedures used in the medical field via a website; providing consulting services in the field of hospital inpatient classification for payment reimbursement purposes and providing patient profiles for hospitals; providing on-line, non-downloadable software for use in extracting patient clinic notes and medical records and translating language for assigning diagnostic and treatment codes, and for comparing accuracy with other
