Cl.07. Machines for the transmission and production of energy, machine tools, power-operated tools; machine coupling and transmission components, except for land vehicles; electrical and other generators (as far as included in this class), gas and chemical generators; power generation plants and equipment, namely gas and steam turbine power plants, wind and hydroelectric power plants, solar-powered electricity generators, parts and fittings of the aforementioned plants as included in this class; centrifuges; electric power generators; electric motors and parts thereof, except for land vehicles; electric power generators for ships equipped with electric azimuth thrusters; diesel motors for ships equipped with azimuth thrusters; vessels of all kind, namely containers designed to hold gases or liquids at a specific pressure [parts of machines]; high pressure vessels [parts of machines]; electricity generators, in particular driven by wind power, wind turbines, windmills, wind power plants, wind turbine towers; turbines; turbine blades for power generation; turbines for power generation; pumps, compressors, fans for engines; bushings as parts of machines; gears for machines; gear boxes other than for land vehicles; turbine vanes other than parts for land vehicle engines; couplings for machines; rotating equipment for power generation; machines and equipment

for combined compression and chemical processes (rotating olefin cracker), as far as included in this class; rotating grid stabilizer; equipment for conversion of mechanical energy into electrical energy; parts of machines, namely heat exchangers, pumps, valves, pipes, compressors and storage vessels for CO<sub>2</sub> in the field of carbon management, including capture, utilization and storage of carbon; power generating apparatus for biomass installations and plants and parts thereof such as machines, engines and components (as far as included in this class); water heaters (part of machines); heat pumps (parts of machines); electrolysis apparatus for generating hydrogen, oxygen, carbon monoxide and other gases; machines for generating fuels, gases and chemicals by electrolysis; electro-chemical generators for generating electricity; electrolytic apparatus for generating fuels, gases and chemicals; parts and accessories for the afore-mentioned goods as far as included in this class.

Cl.09. Scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signalling, detecting, testing, inspecting, life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; recorded and downloadable computer software; computers and computer peripheral devices; solar cells for generating energy; photovoltaic apparatus and installations for generating solar electricity; photovoltaic cells; solar panels modules and cells; electricity storage apparatus; batteries; accumulators; downloadable software for blockchain technology; sensors and detectors; servicing equipment and automated monitoring apparatus for power plant engineering, namely testing equipment to examine rotor discs, machine parts, weldings and generators; equipment for non-destructive testing of materials in power plants, namely ultrasonic test devices to examine rotor discs and other parts of a turbine; eddy-current test equipment; ultrasonic test equipment; leakage detectors; electricity-generating fuel cell power modules; controllers, electric control valves, switches and circuits; electrolyzer cells; fuel cell power units; test stations for fuels, gas and chemical generators; hydrogen fuel cells.

Cl.11. Apparatus and installations for heating, steam generating, drying, cooling, ventilating in the field of energy generation and energy storage; heat generating apparatus; heat pumps; nuclear generators; nuclear reactors; nuclear power plant installations; reactor vessels; laser driven fusion reactors; power generation equipment and machines for nuclear applications, namely nuclear power plant installations; sanitary installations and equipment, water supply systems; water cleaning, desalination and conditioning systems; the aforesaid goods not relating to or not as parts of surface heating and surface cooling systems.

Cl.12. Electric azimuth thrusters for ships.

Cl.35. Advertising; advertising and marketing research for others, in particular on digital networks (webvertising); market research; business administration; business consultancy and advisory services; business management; adjustment and structuring of data in computer databases; updating data in computer databases; maintenance of data in computer databases; organisation of data in computer databases; systemization of information into computer databases; compilation of information into computer databases; data processing services; all of the aforesaid services in the field of wind energy, solar energy, hydrogen energy, renewable energy, conventional and nuclear energy.

Cl.36. Financial and insurance consultancy in the field of wind energy, solar energy, hydrogen energy, renewable energy, conventional and nuclear energy; brokerage of electricity.

Cl.37. Construction services; installation and repair services of power plants, machines and machine parts and equipment in the field of wind energy, solar energy, hydrogen energy, renewable energy, conventional and nuclear energy; mining extraction, oil and gas drilling; erection, construction,

installation, maintenance and repair of power plants, machines and machine parts and equipment in the field of wind energy, solar energy, hydrogen energy, renewable energy, conventional and nuclear energy; installation, assembly, maintenance, supervision and repair of systems, products and equipment used in power generation, transmission and distribution, electrical engineering, electronics, information technology and mechanical engineering; laying of cables.

Cl.39. Energy storage; storage of gas; distribution of energy; distribution of gas; electricity distribution; distribution of renewable energy.

Cl.40. Treatment of waste materials; recycling of waste and trash; recycling services; rental of equipment for the treatment and transformation of materials, for energy production and for custom manufacturing; generation of energy, in particular by use of fusion energy; generation of electricity, in particular from wind energy and from solar energy; generation of electrical power using carbon sequestration; conversion of nuclear fuels; production of electrical energy from renewable sources; production of hydrogen and other gases; technical consultancy in the field of energy production and conversion; leasing of energy generating machines and systems, namely, leasing of energy conversion equipment, in particular of turbines, compressors, and electrolyzers for production of energy and generation of electricity, leasing of electric and electronic equipment for use in clean energy production.

Cl.42. Scientific and technological services and research and design relating thereto in the field of wind energy, solar energy, hydrogen energy, renewable energy, conventional energy and nuclear energy; industrial analysis, industrial research and industrial design services; research and development for third parties in the fields of electrical engineering, electronics, information technology, medical engineering, physics, chemistry and mechanical engineering as well as planning, consulting, engineering services and technical supervision in these fields; construction and design planning and consulting relating thereto; materials testing; technical support services, namely, remote and on-site infrastructure management services for monitoring, administration and management of public and private cloud computing IT and application systems; quality control and authentication services; design and development of computer hardware and software; software as a service (SaaS); platform as a service (PaaS); blockchain as a service (BaaS); electronic data storage; data storage via blockchain; hosting platforms on the internet; cloud computing; computer programming for data modeling.
